MEMBERS

Cars bring us together

All our Members bring a perspective formed by car culture: the history, the technology, the sport, the fashion, and the drive. While our car knowledge is the common binding agent, its the distinct passions and pursuits of each Member that removes the constraints other clubs have. This stems from our eclectic network of entrepreneurs and professionals who come from a number of unique industries to create the perfect environment for socializing.

Members keep us together

With events such as the Expert Series, Members learn more about a specific industry, hobby, or interest. The featured expert can range from a Sushi chef that teaches you to prep your next meal to are very own Members who are ready to vet out their next product or service. For more information and a schedule of up coming events, contact your Member representative.

SOCIAL

EVENTS

ZE IN ANY SETTING

Club Sportiva Events are a significant reason why Members join the Club. We have a wide variety of events, such as track days, karting, automotive premiers and shows, and Member drives that resonate with the automotive enthusiast inside all of us. As much as we love cars, we also love the destinations, which include sampling new restaurants, or going on something as adventurous as a camping trip on the Central Coast or as extravagant as a trip to Europe for Oktoberfest and factory tours. No matter which events you decide to join, you can be certain that you'll have a great experience.
