

# Is Your Current Phone System Eating Up Your Profits, Causing You Problems And Costing You Business?

If you have outgrown your current phone system and are spending more than \$150 per month on phone service, then listen up!

If you are tired of constant downtime, dropped calls, busy signals, unreachable service technicians, inflexible voicemail systems, unlistened to voicemail, repairs and maintenance, then it is definitely time for you to consider a telephone system that will save you money, drive sales and manage calls throughout your office.

## Here Are 5 Big Reasons Why Our Clients Are Trading In Their Current Telephones For Our Future Generation VoIP Phone System:

- ✓ **Drastically reduces your phone bill.** If you have multiple offices, or even remote workers, new voice-over IP technology integrates your data and voice networks to drastically reduce long distance and lease line charges you are currently paying.
- ✓ **Eliminates expensive technician visits.** Our system has been built so you can easily maintain and customize it via an easy-to-use web interface with a few mouse clicks. No more waiting around for high-priced phone technicians to show up or paying high service call fees.
- ✓ **Unmatched Flexibility.** Whether you have one just office with staff that work from home, or you are a business with staff scattered all over the globe, our VoIP technologies ensure that you can have it all. Seamless telephone service no matter where you work.
- ✓ **FREE voice mail, auto attendant, call processing, and automatic call distribution.** If you've ever bought any other vendor's system, you know they charge a lot more for the extras that are already included standard in our systems.
- ✓ **FREE 24x7 Support and 24 hour Equipment Replacement.** If there is ever a problem give us a call 24x7. If a phone dies or its display goes bad or whatever else may happen, we'll cover the phone warranty and replace it at no additional charge to you.

**Free VoIP Assessment Shows You How To Save \$1,000, \$1,500, \$3,000 or  
More A Year, Or I'll Buy You A Steak Dinner.**

***"We are saving over \$4,500 annually! Thx Bob".***

If you currently have an old PBX legacy system, call us ask us for your **Free VoIP Assessment**. We will come to your office and do a complete communications analysis for your company.

**At the end of our audit, we'll summarize our findings and show you exactly where we can save you a bundle this year.**

**Call our office today at 604.270.1730 and ask for Bob to get started.**
