

# JB3 3" J-BOX

The **JB3** J-Box, part of the most comprehensive ground mount offering available, machined from solid brass with a removable top assembly, is a versatile landscape lighting junction box combined with a variety of mount options. This unit can be buried within 1" of the top, even in exterior wet locations. The optional PVC stabilizing stake or stainless steel trident spike adds significant strength, ensuring a safe and durable installation. The JB3 readily adapts to our complete product line as well as most 12v or 120v fixtures from other manufacturers. Accommodates two 1/2" conduits via threaded bottom inlets for simple and easy through wiring.

- 12V
- 120V
- 1/2" NPS
