

MC45 MOUNT CANOPY

The **MC45** Mount Canopy, part of a full family of canopies from Auroralight, offers a stylish and durable way to mount fixtures. The MC45 is designed to fit all standard 3" or 4" round, flush mounted electrical service boxes. The solid brass body and gasketed escutcheon machined from solid brass offers maximum corrosion resistance and ensures a tight seal where it joins the mounting surface. The MC45 also features a proprietary screwless faceplate that eliminates twisted wires and visible mounting hardware. Available in shallow or deep versions with a choice of 1 or 2 hole cover plates, allowing the MC45 to be used in single or double fixture configurations.

[S] Shallow (6 Cubic Inch)

[D] Deep (10 Cubic Inch)

Adapter Plate (included)
for mounting to
3" and 4" Junction Boxes

ORDERING GUIDE: ^{Prefix} **MC45** M (MOUNT) C (CANOPY) 45 (4.5 INCH DIA.)
