

PC POWER CANOPY

The **PC** Power Canopy, part of a full family of canopies from Auroralight, machined from solid brass is a junction box that conceals an electronic transformer. The PC is designed to fit all standard 3" or 4" round, flush mounted electrical service boxes. The PC adapts from line voltage feed (120v) to many of our low voltage (12v) fixtures, as well as most 12v fixtures from other manufacturers. The PC is compatible with a number of box sizes and utilizes a standard 1/2" (NPS) Universal Thread for near limitless compatibility. Featuring our proprietary screwless faceplate, the PC eliminates twisted wires and visible screws to make installation fast and neat.

Adapter Plate (included) for mounting to 3" and 4" Junction Boxes

ORDERING GUIDE: ^{Prefix} **PC** P (POWER) C (CANOPY)

INDICATES REQUIRED FIELD INDICATES OPTIONAL FIELD

PC			
BOX SIZE	FACEPLATE	FINISH	
[60] 3 1/2" dia.	[1] Single	[NAT] Natural	
[100] 4" dia.	[2] Double	[BLP] Bronze Living Patina	
		[BLP-XD] BLP Extra Dark	
		[NI] Nickel PVD	

Note: Includes 60W 120-12V AC Electronic Transformer. Consult factory for other voltages.
