

STM SCREW-IN TREE MOUNT

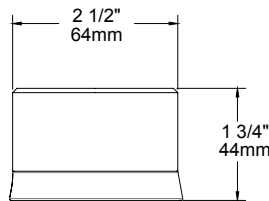

Auroralight's Tree Mounts are machined from solid brass for durability and feature a nylon base with multiple wire exit ports. For use with 12V lighting systems.

The **Screw-in Tree Mount** is a robust attachment suitable for even our heaviest luminaires. Use whenever a wire exit to the mount surface is desired. Supplied with 4" stainless steel wood screws

For easy and safe installation, you can pre-wire luminaires on the ground, and use the supplied stainless steel retention clip to hold connectors inside each brass fitting.
