

Graphic Designer

Location: San Francisco, CA

Duration: 5-10 hrs/week ongoing, on contract

About D-Rev

D-Rev believes that good health is a human right. The need for quality healthcare spans the economic spectrum. Regardless of where you are from and what you do, health is critical to well-being, productivity, and autonomy. For people to live their best lives, they must be healthy. We exist to design and deliver medical technologies that close the quality healthcare gap for underserved populations.

We are a portfolio design company that prioritizes the user in the development of products, and have been recognized by Fast Company as one of the World's Most Innovative organizations and the World Economic Forum as a Technology Pioneer. The scaling of our first product, Brilliance, is monumental in global health – it is one of the earliest examples of a nonprofit-developed global health product scaling through the market and impacting the world's poorest patients. D-Rev now has a portfolio addressing four critical health issues. To date, over 500,000 patients have used a D-Rev device, and we have had sales in 60+ countries.

About the Position

D-Rev is looking for a long-term contract graphic designer who can translate concepts, stories and data into compelling and inspiring visual and graphic designs. At D-Rev we believe that everyone deserves great design - and we strive to accomplish that not only through our world renowned products, but through all of our communications and forward-facing materials.

We are currently working on a range of digital and print design projects including the sharing of impact stories and statistics through photos, videos, infographics and data visualization. Projects include marketing and fundraising collateral, product usability manuals, web design, icons, infographics, and interactive data visualizations. The Graphic Designer will work with a cross-functional team of engineers, products designers, and market specialists to develop materials that represent D-Rev and our products.

Our ideal candidate will have the following characteristics:

- Highly proficient in illustrator, InDesign and Photoshop
- Designs rapidly, and consistent with brand, without compromising quality
- Works effectively with non-graphic designers to translate ideas into compelling visualizations
- Brings ideas to strengthen impact and clarity of D-Rev's communications

Experience with copy-writing, cross-cultural communications, and successful campaigns for public engagement in social issues are pluses.

How to Apply

Please send cover letter and resume to jobs@d-rev.org and indicate "Graphic Designer" in the subject line of the email.
