WORK EXPERIENCE

Full-Stack Software Engineer, Lenda.com

March 2015 - Present

- Stack: Rails 4 / CoffeeScript w/ jQuery / Slim HTML / MongoDB.
- Primary engineer for product implementation. Worked with managers to deliver keystone features, including: accepting purchase mortgage applications, admin and user portal features, and style guide.
- Actively mentored an in-house junior developer on a daily basis and provided coaching on the code base through pair programming as well as supervised a team of remote near-shore developers.
- Architected and executed a website redesign to scale our existing product offering of mortgage refinance-only to mortgage refinance and purchase operations while ensuring compliance with mortgage regulations and privacy laws.
- Designed and implemented RESTful API as part of a Service Oriented Architecture monolithic decoupling.
- Provided internal technical support via a custom designed slackbot integrated ticketing system which has contributed to a reduction in bugs across our application and optimized internal employee workflows.
- Designed and built a fully-featured back-end system for marketing SEO "guide" scaffolding.

Full-Stack Software Engineer, Wanderable.com

April 2014 - March 2015

- Stack: Rails 3 / CoffeeScript w/ jQuery / ERB HTML / PostgreSQL.
- Created "White Label" Honeymoon Registries feature for personalized, branded subdomains.
- Proficient with payment processing (Balanced, Stripe, Wex, PayPal).
- Integrated 3rd party APIs (Cloudinary image hosting, Amazon S3 storage, SendGrid, EasyPost).

Manager of Physical Production, FOX Television Studios

2010 - 2013

- Managed 100+ employees on up to 12 concurrent television productions (The Americans, White Collar).

EDUCATION

App Academy, San Francisco

January 2014 - April 2014

- Intensive 12-week coding bootcamp with 5% acceptance/80% graduation rates.
- Studied full-stack web development best practices with 100+ hours/week required course work and weekly evaluations.

University of California, Santa Barbara (3.3 Cumulative GPA), 2000 - 2004

- Bachelor of Arts Degree — Majored in Film Studies, Minored in History.

TECHNICAL EXPERIENCE & SIDE PROJECTS

- Contributed to Bootstrap 4: <https://github.com/twbs/bootstrap/pull/19665> (2 accepted & merged features)
- Built custom Spotify / KCRW 1-click playlist generator: <http://www.dellamico.com/playlists>

www.p90xbuddy.com/ | [code \(https://github.com/teoucsb82/p90x\)](https://github.com/teoucsb82/p90x)

- Free workout application for P90X where a user can track their progress, or workout virtually with buddy.
- Includes calendar, worksheet tracking and buddy-mode -- compare your progress and stay motivated!

www.bs4themes.com/ | [code \(https://github.com/teoucsb82/bs4themes\)](https://github.com/teoucsb82/bs4themes)

- Free template portal designed specifically for Bootstrap 4 (alpha 2).
- Includes a number of individually crafted skins designed to jumpstart new Bootstrap 4 applications.
