

## TEACHERGEEK RULER

If you do not have a ruler, you can print and use this one.

Make sure this ruler is printed to "Actual Size". When you select print, make sure you have "Actual Size" selected.

Size Options:

- ☐ Fit
- ☒ Actual size
- ☐ Shrink oversized pages

You can cut  
the ruler out.

This project was developed by TeacherGeek® and is featured on MakerHub with their permission. For more makerspace projects, visit [makerhub.demco.com](http://makerhub.demco.com).

## VERIFY SCALE

Verify that your printed ruler is at proper scale. Place a connector strip on the white connector strip outline. The outline and connector strip should be the same size. If they are not, try printing a new ruler to actual size (without scaling).
