

# PowerPoint Replicator Swipes

## Email 1

**Subject:** Supercharge your Journal Production with PowerPoint Replicator

Di Heuser and Hans Miedema have created a powerful tool using PowerPoint and Excel to generate hundreds of covers at a push of a button.

This can also be used to create multi-page journals or planners using the same software in an instant.

If you prefer PowerPoint for creating your low content books, then you are absolutely going to love this. Using the principles of data driven design, this tool will revolutionise your book production.

Don't believe me? Watch the video on the sales page: <aff link here>

Regards,

<Your Name>

## Email 2

**Subject:** Is your journal/planner book production clunky and time consuming?

The secret to low content books sales is to produce a lot of them. The problem is that the process can be time consuming. If you are battling with book production then you are going to love PowerPoint Replicator.

This automation tool was created by Di Heuser and Hans Miedema and works with Excel and PowerPoint.

Create hundreds of covers instantly or create a full length journal and planner with a push of the button.

Di goes through the entire process on her sales page which you can view here: <aff link>

This is super easy.

Regards
