

JTAG-SMT2-NC (210-308) Statement of Volatility

Dtd: 01/28/2015

The JTAG-SMT2-NC, Digilent PN 210-308, contains the memory devices described in the table below.

Storage Type	Size	Location	Volatility	Removable	Function	Access Restrictions
EEPROM	2Kbit	IC3	nonvolatile	no	ID and Configuration	Digilent's API provides the ability to write three different string fields, with maximum lengths of 15, 16, and 28 bytes. However, there is nothing to prevent a user from overwriting the contents of the entire device.
