The Holocaust was an historical event that has profoundly shaped our understanding of modern society and has left behind a vast historical record. In the last decade, more and more of that record has become (and is becoming) available digitally.

This public conference seeks to reflect synthetically on the first decade of historical and spatial analysis of the Holocaust through the use of digital methods. What interpretive problems are illuminated by different physical, textual, and visual sources, such as physical killing sites, bureaucratic documents, postwar survivor interview transcripts, photographs, and maps? In addition to presentations on how digital methods have been used in Holocaust Studies (with beneficial and problematic results), the conference will broaden the scope and impact of such a discussion by opening up a dialogue in each session with digital historians and visualization experts from a broader range of fields.

Thursday, January 17: Keynote, 5:30PM

"An Epistemology of the Virtual: or, what can Concealed Reveal?"
(Lance Wyne, Department of Art and Design, and Center for Material Culture Studies, University of Delaware)

Friday, January 18: Conference Panels and Speakers

Welcome and Introduction [9:00-9:15AM]
(Sarah Schnorr, Nasher Museum of Art, Robert M. Ehrenreich, Mandell Center, U.S. Holocaust Memorial Museum, Paul Jaskot, Duke University)

The Ethics of Visual Sources and Visualization [9:15-10:30AM]
(Session Chair, Michael Horney Goldmacher, U.S. Holocaust Memorial Museum, Paul Jaskot, Duke University)

A Day at the Beach: Littoral Space in the Lisl-Paulia Massacre Photographs (Daniel Maglow, University of Tennessee)
Cartography and the Representation of Atrocity (Margaret Pearce, Cartographer)
Respondent (Paul Jaskot, Duke University)

Criminal Places as (Digitized and Digital) Data [10:45AM-12:00PM]
(Session Chair: Evi Duff, Duke University)

Space and Places of the Holocaust: Methodological Reflections (Alberto Giordano, Texas State University)
Conflict Urbanism: Colombia – The Memory of a Conflict Through a Single Dataset (Juan Francisco Salamango, Columbia University)
Respondent (Anton Kusters, Independent Artist)

Historical Texts as (Digitized and Digital) Spatial Data [1:30-2:45PM]
(Session Chair: Anka Walk, Washington University)

I Was Here: Spatial Problems in Holocaust Survivor Interviews (Anne Kelly Knowles, University of Maine, and Tim Cole, Bristol University)
Text Mining Archival Records to Map 19th-Century Potato Blight (Laura Telesca, North Carolina State University)
Respondent (Todd Preiner, UCLA)

Pedagogical Approaches to Visualizing (Holocaust and non-Holocaust) Digital Datasets [3:00-4:15PM]
(Session Chair: Robert M. Ehrenreich, U.S. Holocaust Memorial Museum)

Constructing a Teachable Archive: Curating a Primary Source Experience in the Digital World (Leah Wolowicz, US Holocaust Memorial Museum)
Contexted Histories: Collaborative Approaches to Visualizing Cultural Heritage (Victoria Sanfilippo, Duke University)
Respondent (Rachel Dooling, UC Santa Cruz)

Concluding Roundtable [4:15-5:00] (Moderators: Robert M. Ehrenreich and Paul Jaskot) – Reception to Follow
