**State Environmental Planning Policies**

<b>No</b>	<b>SEPP NAME</b>	<b>SEPP AIM</b>
21	Caravan Parks	Ensures that where caravan parks or camping grounds are permitted under an environmental planning instrument, movable dwellings, as defined in the Local Government Act 1993, are also permitted. The policy ensures that development consent is required for new caravan parks and camping grounds and for additional long-term sites in existing caravan parks. It also enables, with the council's consent, long-term sites in caravan parks to be subdivided by leases of up to 20 years.
30	Intensive Agriculture	Requires specified matters to be considered for cattle feedlots having a capacity to accommodate 50 or more head of cattle or piggeries having a capacity to accommodate 200 or more pigs or 20 or more breeding sows. The policy also extends the definition of the term rural industry to include composting facilities or works, including facilities and works for the production of mushroom substrate.
33	Hazardous and Offensive Development	Provides new definitions for 'hazardous industry', 'hazardous storage establishment', 'offensive industry' and 'offensive storage establishment'. The definitions apply to all planning instruments, existing and future. The new definitions enable decisions to approve or refuse a development to be based on the merit of proposal. The consent authority must carefully consider the specifics the case, the location and the way in which the proposed activity is to be carried out. The policy also requires specified matters to be considered for proposals that are 'potentially hazardous' or 'potentially offensive' as defined in the policy. For example, any application to carry out a potentially hazardous or potentially offensive development is to be advertised for public comment, and applications to carry out potentially hazardous development must be supported by a preliminary hazard analysis (PHA). The policy does not change the role of councils as consent authorities, land zoning, or the designated development provisions of the EP&A Act.
36	Manufactured Home Estates	Helps establish well-designed and properly serviced manufactured home estates (MHEs) in suitable locations. Affordability and security of tenure for residents are important aspects. To enable the immediate development of estates, the policy allows MHEs to be located on certain land where caravan parks are permitted. There are however, criteria that a proposal must satisfy before the local council can approve development. The policy also permits, with consent, the subdivision of estates either by community title or by leases of up to 20 years. A section 117 direction issued in conjunction with the policy guides councils in preparing local environmental plans for MHEs, enabling them to be excluded from the policy.
44	Koala Habitat Protection	Encourages the conservation and management of natural vegetation areas that provide habitat for koalas to ensure permanent free-living populations will be maintained over their present range. Local councils cannot approve development in an area affected by the policy without an investigation of core koala habitat. The policy provides the state-wide approach needed to enable appropriate development to continue, while ensuring there is ongoing protection of koalas and their habitat.
50	Canal Estates	Bans new canal estates from the date of gazettal, to ensure coastal and aquatic environments are not affected by these developments.

55	Remediation of land	Introduces state-wide planning controls for the remediation of contaminated land. The policy states that land must not be developed if it is unsuitable for a proposed use because it is contaminated. If the land is unsuitable, remediation must take place before the land is developed. The policy makes remediation permissible across the State, defines when consent is required, requires all remediation to comply with standards, ensures land is investigated if contamination is suspected, and requires councils to be notified of all remediation proposals. To assist councils and developers, the Department, in conjunction with the Environment Protection Authority, has prepared Managing Land Contamination: Planning Guidelines.
62	Sustainable Aquaculture	<p>The aims and objectives of this Policy are:</p> <ul style="list-style-type: none"> <li>• to encourage sustainable aquaculture, including sustainable oyster aquaculture, in the State, namely, aquaculture development which uses, conserves and enhances the community's resources so that the total quality of life now and in the future can be preserved and enhanced, and</li> <li>• to make aquaculture development permissible in certain zones under the Standard Instrument, as identified in the <i>NSW Land Based Sustainable Aquaculture Strategy</i>, and</li> <li>• to set out the minimum site location and operational requirements for permissible aquaculture development (the <b>minimum performance criteria</b>), and</li> <li>• to establish a graduated environmental assessment regime for aquaculture development based on the applicable level of environmental risk associated with site and operational factors (including risks related to climate change, in particular, rising sea levels), and</li> <li>• to apply the Policy to land-based aquaculture development and oyster aquaculture development in the State and to include facility for extension of the Policy to natural water-based aquaculture.</li> </ul>
64	Advertising and Signage	Aims to (a) ensure that signage is of high quality design and finish; compatible with the desired amenity and visual character of an area and provides effective communication in suitable locations; (b) regulate signage (but not content); and (c) provide time-limited consents for the display of certain advertisements.
65	Design Quality of Residential Flat Development	Raises the design quality of residential flat development across the state through the application of a series of design principles. Provides for the establishment of Design Review Panel to provide independent expert advice to councils on the merit of residential flat development. The accompanying regulation requires the involvement of qualified designer throughout the design, application and construction stages.
	SEPP (Housing for Seniors or People with a Disability) 2004	Encourages the development of high quality accommodation for ageing population and for people with disabilities
	SEPP (Building Sustainability Index : BASIX) 2004	Operates in conjunction with Environmental Planning Assessment Amendment (Building Sustainability Index: BASIX) Regulation 2004 to ensure the effective introduction of BASIX in NSW. The SEPP ensures consistency in the implementation of BASIX throughout the State by overriding competing provisions in other environmental planning instruments and development control plans, and specifying that SEPP 1 does not apply in relation to development standards arising under BASIX.

	SEPP (Major Development) 2005	Defines what development is state significant development and determined by the Minister for Infrastructure and Planning.
	SEPP (Mining, Petroleum Production and Extractive Industries) 2007	Aims to provide for the proper management and development of mineral, petroleum and extractive material resources for the social and economic welfare of the State. The Policy establishes appropriate planning controls to encourage ecologically sustainable development.
	SEPP (Infrastructure) 2007	Provides a consistent planning regime for infrastructure and the provision of services across NSW, along with providing for consultation with relevant public authorities during the assessment process. The SEPP supports greater flexibility in the location of infrastructure and service facilities along with improved regulatory certainty and efficiency.
	SEPP (Miscellaneous Consent Provisions) 2007	<p>The aims of this Policy are as follows:</p> <ul style="list-style-type: none"> <li>• to provide that the erection of temporary structures is permissible with consent across the State,</li> <li>• to ensure that suitable provision is made for ensuring the safety of persons using temporary structures,</li> <li>• to encourage the protection of the environment at the location, and in the vicinity, of temporary structures by specifying relevant matters for consideration,</li> <li>• to provide that development comprising the subdivision of land, the erection of a building or the demolition of a building, to the extent to which it does not already require development consent under another environmental planning instrument, cannot be carried out except with development consent.</li> </ul>
	SEPP (Rural Lands) 2008	Aims to facilitate the orderly and economic use and development of rural lands for rural and related purposes.
	SEPP (Exempt and Complying Development Codes) 2008	The policy provides exempt and complying development codes that have State-wide application, identifying, in the General Exempt Development Code, types of development that are of minimal environmental impact that may be carried out without the need for development consent; and, in the General Housing Code, types of complying development that may be carried out in accordance with a complying development certificate
	SEPP (Affordable Rental Housing) 2009	Establishes a consistent planning regime for the provision of affordable rental housing. The policy provides incentives for new affordable rental housing, facilitates the retention of existing affordable rentals, and expands the role of not-for-profit providers. It also aims to support local centres by providing housing for workers close to places of work, and facilitate development of housing for the homeless and other disadvantaged people.
	SEPP (Sydney Drinking Water Catchment) 2011	<p>Applies to land in the Sydney hydrological catchment.</p> <p>The aims of this Policy are:</p> <ul style="list-style-type: none"> <li>(a) to provide for healthy water catchments that will deliver high quality water while permitting development that is compatible with that goal, and</li> <li>(b) to provide that a consent authority must not grant consent to a proposed development unless it is satisfied that the proposed development will have a neutral or beneficial effect on water quality, and</li> <li>(c) to support the maintenance or achievement of the water quality objectives for the Sydney drinking water catchment.</li> </ul>

	SEPP (Vegetation in Non-Rural Areas) 2017	<p>The aims of this Policy are:</p> <ul style="list-style-type: none"> <li>to protect the biodiversity values of trees and other vegetation in non-rural areas of the State, and</li> <li>to preserve the amenity of non-rural areas of the State through the preservation of trees and other vegetation</li> </ul>
	SEPP (Educational Establishments and Child Care Facilities) 2017	<p>The SEPP aims to:</p> <ul style="list-style-type: none"> <li>streamline the planning system for education and child care facilities including changes to exempt and complying development;</li> <li>make NSW the first State to bring National Laws regulating early childhood education and care into a state planning system;</li> <li>bring the Department of Education into the planning process and give child care providers and developers upfront information about, all national and state requirements for new child care services;</li> <li>streamline the delivery of new schools and upgrading existing facilities, with a focus on good design; and</li> <li>assist TAFEs and universities to expand and adapt their specialist facilities in response to the growing need, and to maintain our reputation for providing world class tertiary education, while allowing for more flexibility in the use of their facilities.</li> </ul>

# Nationwide House Energy Rating Scheme\* Certificate

Certificate number: 0003875309-01

Certificate Date: 27 May 2019

★ Star rating: 5.9

BERS Pro v4.3.0.0 (3.13) cannot be used to model 'roof windows'. Roof windows are 'openable or fixed windows in a roof' and do not have a shaft, as distinct from skylights which incorporate a built-in shaft and are not ventilated. BERS Pro v4.3 can only model skylights. If a roof window is present on the floor plan then this certificate is not valid.

## Additional information

## Explanatory notes

### About this report

Residential energy ratings address the quality of the building fabric i.e. walls, windows, floors and roof/ceilings. Ratings do not cover the energy or water efficiency of appliances including heating and cooling, hot water, dishwashers, ovens, fridges, TVs etc. or solar panel or water tank requirements. The efficiency or specification of these items is generally covered by other regulations, standards or guidelines.

### General Information

A NatHERS House Energy Rating is a comprehensive, dynamic computer modelling evaluation of the floorplans, elevations and specifications to predict an energy load of a home. Not all of us use our homes in the same way, so ratings are generated using standard assumptions. This means homes can be compared across the country.

The actual energy consumption of your home may vary significantly from the predicted energy load figures in the report depending on issues such as the size of your household and your personal preferences, e.g. in terms of heating or cooling.

While the figures are an indicative guide to energy use, they can be used as a reliable guide for comparative purposes between different house designs and for demonstrating that the design meets the required regulatory compliance.

Homes that are energy efficient use less energy, are warmer in winter, cooler in summer and cost less to run. The higher the star rating the more energy efficient.

This NatHERS House Energy Rating report was carefully prepared by your assessor on the basis of comprehensive modelling using standard procedures to rate your home using the underlying engine developed by the Australian Commonwealth Scientific and Industrial Research Organisation (CSIRO).

All information relating to energy loads presented in this report is based on a range of standard assumptions in order to allow for comparisons with reports prepared for other homes and to demonstrate minimum regulatory compliance.

The standard assumptions include figures for occupancy, indoor air temperature and are based on a unique climate file for your region.

### Accredited Assessors

To ensure you get a high-quality, professional NatHERS House Energy Rating report, you should always use an accredited assessor, accredited assessors are members of a professional body called an Assessor Accrediting Organisation (AAO).

AAOs have specific quality assurance processes in place and continuing professional development requirements to maintain a high and consistent standard of assessments across the country. Non-accredited assessors do not have this level of quality assurance or any on-going training requirements.

If you have any questions or concerns about this report, please direct them to your assessor in the first instance.

If your assessor is unable to address your questions or concerns, please contact their AAO listed under 'assessor details'. You can also find a range of information about accredited assessors on the AAO websites.

### Disclaimer

The energy values quoted are for comparison purposes only; they are not a prediction of actual energy use. This rating only applies to the floor plan, construction details, orientation and climate as submitted and included in the attached drawing set that bears a stamp with the same number as this certificate. Changes to any of these details could affect the rating.

## Important information

### Who is protected by a clearance certificate?

A clearance certificate states whether there is any land tax (including surcharge land tax) owing on a property. The certificate protects a purchaser from outstanding land tax liability by a previous owner, however it does not provide protection to the owner of the land.

### When is a certificate clear from land tax?

A certificate may be issued as 'clear' if:

- the land is not liable or is exempt from land tax
- the land tax has been paid
- Revenue NSW is satisfied payment of the tax is not at risk, or
- the owner of the land failed to lodge a land tax return when it was due, and the liability was not detected at the time the certificate was issued.

**Note:** A clear certificate does not mean that land tax was not payable, or that there is no land tax adjustment to be made on settlement if the contract for sale allows for it.

### When is a certificate not clear from land tax?

Under section 47 of the *Land Tax Management Act 1956*, land tax is a charge on land owned in NSW at midnight on 31 December of each year. The charge applies from the taxing date and does not depend on the issue of a land tax assessment notice. Land tax is an annual tax so a new charge may occur on the taxing date each year.

### How do I clear a certificate?

A charge is removed for this property when the outstanding land tax amount is processed and paid in full.

To determine the land tax amount payable, you must use one of the following approved supporting documents:

- Current year land tax assessment notice. This can only be used if the settlement date is no later than the first instalment date listed on the notice. If payment is made after this date interest may apply.
- Clearance quote or settlement letter which shows the amount to clear.

The charge on the land will be considered removed upon payment of the amount shown on these documents

### How do I get an updated certificate?

A certificate can be updated by re-processing the certificate through your Client Service Provider (CSP), or online at [www.revenue.nsw.gov.au](http://www.revenue.nsw.gov.au).

Please allow sufficient time for any payment to be processed prior to requesting a new version of the clearance certificate.

### Land value, tax rates and thresholds

The taxable land value shown on the clearance certificate is the value used by Revenue NSW when assessing land tax. Details on land tax rates and thresholds are available at [www.revenue.nsw.gov.au](http://www.revenue.nsw.gov.au).

**IMPORTANT NOTICE TO VENDORS AND PURCHASERS**

Before signing this contract you should ensure that you understand your rights and obligations, some of which are not written in this contract but are implied by law.

**WARNING—SMOKE ALARMS**

The owners of certain types of buildings and strata lots must have smoke alarms (or in certain cases heat alarms) installed in the building or lot in accordance with regulations under the *Environmental Planning and Assessment Act 1979*. It is an offence not to comply. It is also an offence to remove or interfere with a smoke alarm or heat alarm. Penalties apply.

**WARNING—LOOSE-FILL ASBESTOS INSULATION**

Before purchasing land that includes any residential premises (within the meaning of Division 1A of Part 8 of the *Home Building Act 1989*) built before 1985, a purchaser is strongly advised to consider the possibility that the premises may contain loose-fill asbestos insulation (within the meaning of Division 1A of Part 8 of the *Home Building Act 1989*). In particular, a purchaser should:

- (a) search the Register required to be maintained under Division 1A of Part 8 of the *Home Building Act 1989*, and
- (b) ask the relevant local council whether it holds any records showing that the residential premises contain loose-fill asbestos insulation.

For further information about loose-fill asbestos insulation (including areas in which residential premises have been identified as containing loose-fill asbestos insulation), contact NSW Fair Trading.

### **COOLING OFF PERIOD (PURCHASER'S RIGHTS)**

1. This is the statement required by section 66X of the *Conveyancing Act 1919* and applies to a contract for the sale of residential property.
2. The purchaser may rescind the contract at any time before 5 p.m. on the fifth business day after the day on which the contract was made, **EXCEPT** in the circumstances listed in paragraph 3.
3. There is **NO COOLING OFF PERIOD**:
  - (a) if, at or before the time the contract is made, the purchaser gives to the vendor (or the vendor's solicitor or agent) a certificate that complies with section 66W of the Act, or
  - (b) if the property is sold by public auction, or
  - (c) if the contract is made on the same day as the property was offered for sale by public auction but passed in, or
  - (d) if the contract is made in consequence of the exercise of an option to purchase the property, other than an option that is void under section 66ZG of the Act.
4. A purchaser exercising the right to cool off by rescinding the contract will forfeit to the vendor 0.25% of the purchase price of the property. The vendor is entitled to recover the amount forfeited from any amount paid by the purchaser as a deposit under the contract and the purchaser is entitled to a refund of any balance.

### **DISPUTES**

If you get into a dispute with the other party, the Law Society and Real Estate Institute encourage you to use informal procedures such as negotiation, independent expert appraisal, the Law Society Conveyancing Dispute Resolution Scheme or mediation (for example mediation under the Law Society Mediation Program).

### **AUCTIONS**

Regulations made under the Property, Stock and Business Agents Act 2002 prescribe a number of conditions applying to sales by auction.

**WARNINGS**

1. Various Acts of Parliament and other matters can affect the rights of the parties to this contract. Some important matters are actions, claims, decisions, licences, notices, orders, proposals or rights of way involving:

Australian Taxation Office  
Council  
County Council  
Department of Planning and Environment  
Department of Primary Industries  
East Australian Pipeline Limited  
Electricity and gas  
Land & Housing Corporation  
Local Land Services  
NSW Department of Education

NSW Fair Trading  
NSW Public Works Advisory  
Office of Environment and Heritage  
Owner of adjoining land  
Privacy  
Roads and Maritime Services  
Subsidence Advisory NSW  
Telecommunications  
Transport for NSW  
Water, sewerage or drainage authority

If you think that any of these matters affects the property, tell your solicitor.

2. A lease may be affected by the Agricultural Tenancies Act 1990, the Residential Tenancies Act 2010 or the Retail Leases Act 1994.
3. If any purchase money is owing to the Crown, it will become payable before obtaining consent, or if no consent is needed, when the transfer is registered.
4. If a consent to transfer is required under legislation, see clause 27 as to the obligations of the parties.
5. The vendor should continue the vendor's insurance until completion. If the vendor wants to give the purchaser possession before completion, the vendor should first ask the insurer to confirm this will not affect the insurance.
6. The purchaser will usually have to pay stamp duty (and sometimes surcharge purchaser duty) on this contract. If duty is not paid on time, a purchaser may incur penalties.
7. If the purchaser agrees to the release of deposit, the purchaser's right to recover the deposit may stand behind the rights of others (for example the vendor's mortgagee).
8. The purchaser should arrange insurance as appropriate.
9. Some transactions involving personal property may be affected by the Personal Property Securities Act 2009.
10. A purchaser should be satisfied that finance will be available at the time of completing the purchase.
11. Where the market value of the property is at or above a legislated amount, the purchaser may have to comply with a foreign resident capital gains withholding payment obligation (even if the vendor is not a foreign resident). If so, this will affect the amount available to the vendor on completion.
12. Purchasers of some residential properties may have to withhold part of the purchase price to be credited towards the GST liability of the vendor. If so, this will also affect the amount available to the vendor.

The vendor sells and the purchaser buys the *property* for the price under these provisions instead of Schedule 3 Conveyancing Act 1919, subject to any *legislation* that cannot be excluded.

## 2 Deposit and other payments before completion

- 2.1 The purchaser must pay the deposit to the *depositholder* as stakeholder.
- 2.2 *Normally*, the purchaser must pay the deposit on the making of this contract, and this time is essential.
- 2.3 If this contract requires the purchaser to pay any of the deposit by a later time, that time is also essential.
- 2.4 The purchaser can pay any of the deposit by giving cash (up to \$2,000) or by unconditionally giving a *cheque* to the *depositholder* or to the vendor, vendor's agent or vendor's *solicitor* for sending to the *depositholder*.
- 2.5 If any of the deposit is not paid on time or a *cheque* for any of the deposit is not honoured on presentation, the vendor can *terminate*. This right to *terminate* is lost as soon as the deposit is paid in full.
- 2.6 If the vendor accepts a bond or guarantee for the deposit, clauses 2.1 to 2.5 do not apply.
- 2.7 If the vendor accepts a bond or guarantee for part of the deposit, clauses 2.1 to 2.5 apply only to the balance.

- 2.8 If any of the deposit or of the balance of the price is paid before completion to the vendor or as the vendor directs, it is a charge on the land in favour of the purchaser until *termination* by the vendor or completion, subject to any existing right.
- 2.9 If each *party* tells the *depositholder* that the deposit is to be invested, the *depositholder* is to invest the deposit (at the risk of the *party* who becomes entitled to it) with a *bank*, in an interest-bearing account in NSW, payable at call, with interest to be reinvested, and pay the interest to the *parties* equally, after deduction of all proper government taxes and financial institution charges and other charges.

### 3 Deposit-bond

- 3.1 This clause applies only if this contract says the vendor has agreed to accept a *deposit-bond* for the deposit (or part of it).
- 3.2 The purchaser must provide the original *deposit-bond* to the vendor's *solicitor* (or if no *solicitor* the *depositholder*) at or before the making of this contract and this time is essential.
- 3.3 If the *deposit-bond* has an expiry date and completion does not occur by the date which is 14 days before the expiry date, the purchaser must *serve* a replacement *deposit-bond* at least 7 days before the expiry date. The time for service is essential.
- 3.4 The vendor must approve a replacement *deposit-bond* if –
- 3.4.1 it is from the same issuer and for the same amount as the earlier *deposit-bond*; and
  - 3.4.2 it has an expiry date at least three months after its date of issue.
- 3.5 A breach of clauses 3.2 or 3.3 entitles the vendor to *terminate*. The right to *terminate* is lost as soon as –
- 3.5.1 the purchaser *serves* a replacement *deposit-bond*; or
  - 3.5.2 the deposit is paid in full under clause 2.
- 3.6 Clauses 3.3 and 3.4 can operate more than once.
- 3.7 If the purchaser *serves* a replacement *deposit-bond*, the vendor must *serve* the earlier *deposit-bond*.
- 3.8 The amount of any *deposit-bond* does not form part of the price for the purposes of clause 16.7.
- 3.9 The vendor must give the purchaser the *deposit-bond* –
- 3.9.1 on completion; or
  - 3.9.2 if this contract is *rescinded*.
- 3.10 If this contract is *terminated* by the vendor –
- 3.10.1 *normally*, the vendor can immediately demand payment from the issuer of the *deposit-bond*; or
  - 3.10.2 if the purchaser *serves* prior to *termination* a notice disputing the vendor's right to *terminate*, the vendor must forward the *deposit-bond* (or its proceeds if called up) to the *depositholder* as stakeholder.
- 3.11 If this contract is *terminated* by the purchaser –
- 3.11.1 *normally*, the vendor must give the purchaser the *deposit-bond*; or
  - 3.11.2 if the vendor *serves* prior to *termination* a notice disputing the purchaser's right to *terminate*, the vendor must forward the *deposit-bond* (or its proceeds if called up) to the *depositholder* as stakeholder.

### 4 Transfer

- 4.1 *Normally*, the purchaser must *serve* at least 14 days before the date for completion –
- 4.1.1 the form of transfer; and
  - 4.1.2 particulars required to register any mortgage or other dealing to be lodged with the transfer by the purchaser or the purchaser's mortgagee.
- 4.2 If any information needed for the form of transfer is not disclosed in this contract, the vendor must *serve* it.
- 4.3 If the purchaser *serves* a form of transfer and the transferee is not the purchaser, the purchaser must give the vendor a direction signed by the purchaser personally for this form of transfer.
- 4.4 The vendor can require the purchaser to include a form of covenant or easement in the transfer only if this contract contains the wording of the proposed covenant or easement, and a description of the land benefited.

### 5 Requisitions

- 5.1 If a form of *requisitions* is attached to this contract, the purchaser is taken to have made those *requisitions*.
- 5.2 If the purchaser is or becomes entitled to make any other *requisition*, the purchaser can make it only by *serving* it –
- 5.2.1 if it arises out of this contract or it is a general question about the *property* or title - *within* 21 days after the contract date;
  - 5.2.2 if it arises out of anything *served* by the vendor - *within* 21 days after the later of the contract date and that *service*; and
  - 5.2.3 in any other case - *within* a reasonable time.

### 6 Error or misdescription

- 6.1 The purchaser can (but only before completion) claim compensation for an error or misdescription in this contract (as to the *property*, the title or anything else and whether substantial or not).
- 6.2 This clause applies even if the purchaser did not take notice of or rely on anything in this contract containing or giving rise to the error or misdescription.
- 6.3 However, this clause does not apply to the extent the purchaser knows the true position.

**7 Claims by purchaser**

The purchaser can make a claim (including a claim under clause 6) before completion only by *serving* it with a statement of the amount claimed, and if the purchaser makes one or more claims before completion –

7.1 the vendor can *rescind* if in the case of claims that are not claims for delay –

7.1.1 the total amount claimed exceeds 5% of the price;

7.1.2 the vendor *serves* notice of intention to *rescind*; and

7.1.3 the purchaser does not *serve* notice waiving the claims *within* 14 days after that *service*; and

7.2 if the vendor does not *rescind*, the *parties* must complete and if this contract is completed –

7.2.1 the lesser of the total amount claimed and 10% of the price must be paid out of the price to and held by the *depositholder* until the claims are finalised or lapse;

7.2.2 the amount held is to be invested in accordance with clause 2.9;

7.2.3 the claims must be finalised by an arbitrator appointed by the *parties* or, if an appointment is not made *within* 1 month of completion, by an arbitrator appointed by the President of the Law Society at the request of a *party* (in the latter case the *parties* are bound by the terms of the Conveyancing Arbitration Rules approved by the Law Society as at the date of the appointment);

7.2.4 the purchaser is not entitled, in respect of the claims, to more than the total amount claimed and the costs of the purchaser;

7.2.5 net interest on the amount held must be paid to the *parties* in the same proportion as the amount held is paid; and

7.2.6 if the *parties* do not appoint an arbitrator and neither *party* requests the President to appoint an arbitrator *within* 3 months after completion, the claims lapse and the amount belongs to the vendor.

**8 Vendor's rights and obligations**

8.1 The vendor can *rescind* if –

8.1.1 the vendor is, on reasonable grounds, unable or unwilling to comply with a *requisition*;

8.1.2 the vendor *serves* a notice of intention to *rescind* that specifies the *requisition* and those grounds; and

8.1.3 the purchaser does not *serve* a notice waiving the *requisition within* 14 days after that *service*.

8.2 If the vendor does not comply with this contract (or a notice under or relating to it) in an essential respect, the purchaser can *terminate* by *serving* a notice. After the *termination* –

8.2.1 the purchaser can recover the deposit and any other money paid by the purchaser under this contract;

8.2.2 the purchaser can sue the vendor to recover damages for breach of contract; and

8.2.3 if the purchaser has been in possession a *party* can claim for a reasonable adjustment.

**9 Purchaser's default**

If the purchaser does not comply with this contract (or a notice under or relating to it) in an essential respect, the vendor can *terminate* by *serving* a notice. After the *termination* the vendor can –

9.1 keep or recover the deposit (to a maximum of 10% of the price);

9.2 hold any other money paid by the purchaser under this contract as security for anything recoverable under this clause –

9.2.1 for 12 months after the *termination*; or

9.2.2 if the vendor commences proceedings under this clause *within* 12 months, until those proceedings are concluded; and

9.3 sue the purchaser either –

9.3.1 where the vendor has resold the *property* under a contract made *within* 12 months after the *termination*, to recover –

- the deficiency on resale (with credit for any of the deposit kept or recovered and after allowance for any capital gains tax or goods and services tax payable on anything recovered under this clause); and
- the reasonable costs and expenses arising out of the purchaser's non-compliance with this contract or the notice and of resale and any attempted resale; or

9.3.2 to recover damages for breach of contract.

**10 Restrictions on rights of purchaser**

10.1.2 a service for the *property* being a joint service or passing through another property, or any service for another property passing through the *property* ('service' includes air, communication, drainage, electricity, garbage, gas, oil, radio, sewerage, telephone, television or water service);

10.1.3 a wall being or not being a party wall in any sense of that term or the *property* being affected by an easement for support or not having the benefit of an easement for support;

- 10.1.5 a promise, representation or statement about this contract, the *property* or the title, not set out or referred to in this contract;
- 10.1.6 a condition, exception, reservation or restriction in a Crown grant;
- 10.1.7 the existence of any authority or licence to explore or prospect for gas, minerals or petroleum;
- 10.1.8 any easement or restriction on use the substance of either of which is disclosed in this contract or any non-compliance with the easement or restriction on use; or
- 10.1.9 anything the substance of which is disclosed in this contract (except a caveat, charge, mortgage, priority notice or writ).
- 10.2 The purchaser cannot *rescind* or *terminate* only because of a defect in title to or quality of the inclusions.
- 10.3 *Normally*, the purchaser cannot make a claim or *requisition* or *rescind* or *terminate* or require the vendor to change the nature of the title disclosed in this contract (for example, to remove a caution evidencing qualified title, or to lodge a plan of survey as regards limited title).
- 11 Compliance with work orders**
- 11.1 *Normally*, the vendor must by completion comply with a *work order* made on or before the contract date and if this contract is completed the purchaser must comply with any other *work order*.
- 11.2 If the purchaser complies with a *work order*, and this contract is *rescinded* or *terminated*, the vendor must pay the expense of compliance to the purchaser.
- 12 Certificates and inspections**
- The vendor must do everything reasonable to enable the purchaser, subject to the rights of any tenant –
- 12.1 to have the *property* inspected to obtain any certificate or report reasonably required;
- 12.2 to apply (if necessary in the name of the vendor) for –
- 12.2.1 any certificate that can be given in respect of the *property* under *legislation*; or
- 12.2.2 a copy of any approval, certificate, consent, direction, notice or order in respect of the *property* given under *legislation*, even if given after the contract date; and
- 12.3 to make 1 inspection of the *property* in the 3 days before a time appointed for completion.
- 13 Goods and services tax (GST)**
- 13.1 Terms used in this clause which are not defined elsewhere in this contract and have a defined meaning in the *GST Act* have the same meaning in this clause.
- 13.2 *Normally*, if a *party* must pay the price or any other amount to the other *party* under this contract, GST is not to be added to the price or amount.
- 13.3 If under this contract a *party* must make an adjustment or payment for an expense of another party or pay an expense payable by or to a third party (for example, under clauses 14 or 20.7) –
- 13.3.1 the *party* must adjust or pay on completion any GST added to or included in the expense; but
- 13.3.2 the amount of the expense must be reduced to the extent the party receiving the adjustment or payment (or the representative member of a GST group of which that party is a member) is entitled to an input tax credit for the expense; and
- 13.3.3 if the adjustment or payment under this contract is consideration for a taxable supply, an amount for GST must be added at the *GST rate*.
- 13.4 If this contract says this sale is the supply of a going concern –
- 13.4.1 the *parties* agree the supply of the *property* is a supply of a going concern;
- 13.4.2 the vendor must, between the contract date and completion, carry on the enterprise conducted on the land in a proper and business-like way;
- 13.4.3 if the purchaser is not registered by the date for completion, the *parties* must complete and the purchaser must pay on completion, in addition to the price, an amount being the price multiplied by the *GST rate* ("the retention sum"). The retention sum is to be held by the *depositholder* and dealt with as follows –
- if *within 3 months* of completion the purchaser serves a letter from the Australian Taxation Office stating the purchaser is registered with a date of effect of registration on or before completion, the *depositholder* is to pay the retention sum to the purchaser; but
  - if the purchaser does not serve that letter *within 3 months* of completion, the *depositholder* is to pay the retention sum to the vendor; and
- 13.4.4 if the vendor, despite clause 13.4.1, serves a letter from the Australian Taxation Office stating the vendor has to pay GST on the supply, the purchaser must pay to the vendor on demand the amount of GST assessed.
- 13.5 *Normally*, the vendor promises the margin scheme will not apply to the supply of the *property*.
- 13.6 If this contract says the margin scheme is to apply in making the taxable supply, the *parties* agree that the margin scheme is to apply to the sale of the *property*.
- 13.7 If this contract says the sale is not a taxable supply –
- 13.7.1 the purchaser promises that the *property* will not be used and represents that the purchaser does not intend the *property* (or any part of the *property*) to be used in a way that could make the sale a taxable supply to any extent; and

- 13.7.2 the purchaser must pay the vendor on completion in addition to the price an amount calculated by multiplying the price by the *GST rate* if this sale is a taxable supply to any extent because of –
- a breach of clause 13.7.1; or
  - something else known to the purchaser but not the vendor.
- 13.8 If this contract says this sale is a taxable supply in full and does not say the margin scheme applies to the *property*, the vendor must pay the purchaser on completion an amount of one-eleventh of the price if –
- 13.8.1 this sale is not a taxable supply in full; or
- 13.8.2 the margin scheme applies to the *property* (or any part of the *property*).
- 13.9 If this contract says this sale is a taxable supply to an extent –
- 13.9.1 clause 13.7.1 does not apply to any part of the *property* which is identified as being a taxable supply; and
- 13.9.2 the payments mentioned in clauses 13.7 and 13.8 are to be recalculated by multiplying the relevant payment by the proportion of the price which represents the value of that part of the *property* to which the clause applies (the proportion to be expressed as a number between 0 and 1). Any evidence of value must be obtained at the expense of the vendor.
- 13.10 *Normally*, on completion the vendor must give the recipient of the supply a tax invoice for any taxable supply by the vendor by or under this contract.
- 13.11 The vendor does not have to give the purchaser a tax invoice if the margin scheme applies to a taxable supply.
- 13.12 If the vendor is liable for GST on rents or profits due to issuing an invoice or receiving consideration before completion, any adjustment of those amounts must exclude an amount equal to the vendor's GST liability.
- 13.13 If the purchaser must make an *RW payment* the purchaser must –
- 13.13.1 at least 5 days before the date for completion, *serve* evidence of submission of an *RW payment* notification form to the Australian Taxation Office by the purchaser or, if a direction under clause 4.3 has been *served*, by the transferee named in the transfer *served* with that direction;
- 13.13.2 produce on completion a *settlement cheque* for the *RW payment* payable to the Deputy Commissioner of Taxation;
- 13.13.3 forward the *settlement cheque* to the payee immediately after completion; and
- 13.13.4 *serve* evidence of receipt of payment of the *RW payment*.
- 14 Adjustments**
- 14.1 *Normally*, the vendor is entitled to the rents and profits and will be liable for all rates, water, sewerage and drainage service and usage charges, land tax, levies and all other periodic outgoings up to and including the *adjustment date* after which the purchaser will be entitled and liable.
- 14.2 The *parties* must make any necessary adjustment on completion.
- 14.3 If an amount that is adjustable under this contract has been reduced under *legislation*, the *parties* must on completion adjust the reduced amount.
- 14.4 The *parties* must not adjust surcharge land tax (as defined in the Land Tax Act 1956) but must adjust any other land tax for the year current at the *adjustment date* –
- 14.4.1 only if land tax has been paid or is payable for the year (whether by the vendor or by a predecessor in title) and this contract says that land tax is adjustable;
- 14.4.2 by adjusting the amount that would have been payable if at the start of the year –
- the person who owned the land owned no other land;
  - the land was not subject to a special trust or owned by a non-concessional company; and
  - if the land (or part of it) had no separate taxable value, by calculating its separate taxable value on a proportional area basis.
- 14.5 If any other amount that is adjustable under this contract relates partly to the land and partly to other land, the *parties* must adjust it on a proportional area basis.
- 14.6 *Normally*, the vendor can direct the purchaser to produce a *settlement cheque* on completion to pay an amount adjustable under this contract and if so –
- 14.6.1 the amount is to be treated as if it were paid; and
- 14.6.2 the *cheque* must be forwarded to the payee immediately after completion (by the purchaser if the *cheque* relates only to the *property* or by the vendor in any other case).
- 14.7 If on completion the last bill for a water, sewerage or drainage usage charge is for a period ending before the *adjustment date*, the vendor is liable for an amount calculated by dividing the bill by the number of days in the period then multiplying by the number of unbilled days up to and including the *adjustment date*.
- 14.8 The vendor is liable for any amount recoverable for work started on or before the contract date on the *property* or any adjoining footpath or road.
- 15 Date for completion**
- The *parties* must complete by the date for completion and, if they do not, a *party* can *serve* a notice to complete if that *party* is otherwise entitled to do so.

- 16.4 The legal title to the *property* does not pass before completion.
- 16.5 If the vendor gives the purchaser a document (other than the transfer) that needs to be lodged for registration, the vendor must pay the lodgement fee to the purchaser, plus another 20% of that fee.
- 16.6 If a *party* serves a land tax certificate showing a charge on any of the land, on completion the vendor must give the purchaser a land tax certificate showing the charge is no longer effective against the land.

  - *RW* payment; and
  - amount payable by the vendor to the purchaser under this contract; and
- 16.7.2 any other amount payable by the purchaser under this contract.
- 16.8 If the vendor requires more than 5 *settlement cheques*, the vendor must pay \$10 for each extra *cheque*.
- 16.9 If any of the deposit is not covered by a bond or guarantee, on completion the purchaser must give the vendor an order signed by the purchaser authorising the *depositholder* to account to the vendor for the deposit.
- 16.10 On completion the deposit belongs to the vendor.

**• Place for completion**

- 16.11 *Normally*, the *parties* must complete at the completion address, which is –
- 16.11.1 if a special completion address is stated in this contract – that address; or

- 18.5.1 the vendor can before completion, without notice, remedy the non-compliance; and

18.5.2 if the vendor pays the expense of doing this, the purchaser must pay it to the vendor with interest at the rate prescribed under s101 Civil Procedure Act 2005.
