

The floor plan shows a house with various rooms and a blue line indicating the slope of the house as designed. The blue line starts at a green circle labeled '186' in the top left and ends at a red circle labeled '-6' in the bottom right. Red arrows indicate the flow of water from the top left towards the bottom right, following the slope. The plan includes rooms such as a Living Room (34 m²), a Bathroom (3.1 m²), and several other rooms labeled 'Other 1' through 'Other 10'. Dimensions are provided for various parts of the house, and a blue 'X' marks a specific location in the bottom right area.
