10 OWEN DRIVE DARFIELD

A SECTION WITH A HEAD START

 943 SQM

Here is a section that keeps things refreshingly simple - titled, serviced and ready for the next chapter.

With fencing already in place, along with power, fibre, town water supply and reticulated sewerage available, much of the early groundwork has already been done. That means less waiting, fewer unknowns and a much clearer path towards bringing your build to life.

Set across a generous 943sqm approx., there is room to think beyond the basics. Maybe that looks like extra garaging, a sunny outdoor area, space for children and pets, or simply a home that feels calm, practical and properly considered from the ground up.

Positioned among modern homes and surrounded by that easy Darfield lifestyle, the setting feels established without feeling busy. The township, schools and local amenities are all within comfortable reach.

For those looking to build in a growing and well-regarded location, this is a practical and appealing opportunity with some of the important first steps already taken care of.

Now all it needs is the home.
