BUILDING CONSENT

14792 dated 17.02.98

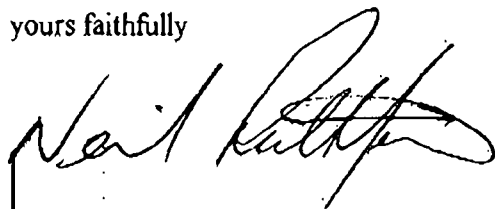

Dear Sir,

The above Building consent has been completed. The building of the Bay window was cancelled by us due to the lack of finance. We decided that we would only replace the Roller garage doors with a ranch slider and a set of windows. This has now been completed and therefore the building work has been completed.

I request that a building inspector call to the site and sign off the completed work to allow us to get a Certificate of Compliance issued.

Please advise me when the Inspector is due to call. All the documentation will be IN THE GAS METER at the right hand side of the house. My ph no is 025 953 976 just to confirm that the forms are in place and to allow me to advise my family that a inspection is happening.

yours faithfully

NEIL RUTHERFORD
