Any relevant certificates like Safe & Sanitary reports, QC data, Insulation or COA certificates? ☐Uploaded to Buyer Documents

Other ☐Uploaded to Buyer Documents

The client(s) undertake to disclose to ownly and the listing salesperson (in writing - addressed to the listing salesperson) details of any water penetration issues that they become aware of between listed date and sold date. Additional Notes: (if required)

This section is to be maintained during the course of the listing by the salesperson.

If I am aware, or become aware during the course of the listing, that (under ownly or any agency);that there has been an accepted offer within the last twelve months on the property that did not progress to confirmation or settlement, or a potential Purchaser withdrew an offer on the basis of a professional report or was unable to arrange finance or insurance because of an issue with the property, it will be explained below, together with our understanding of the reason for the failure, if it is known.

Salespersons notes: If I become aware during the course of the listing of any Disclosure issues (that were not disclosed elsewhere in this document) I will note them here or on the supplementary page attached:

Title Information (Salesperson to complete after listing and before launching on the market)

Address 1 Plover close, Dargaville Title doc obtained on:

ESTATE ☑ Freehold ☐ Cross-Lease (Fee Simple) ☐ Stratum in Freehold (Unit Title) or:

NB: A title will not provide any guarantee regarding boundaries or land size and nor can the salesperson. If you have any doubts you should research further or engage a surveyor to verify the exact boundaries. Mortgages or Caveats: These should be cleared on settlement (i.e before you move in.) If an interest or memorial on the title applies to this land the box next to the explanation is to be marked.

☐ **TITLE YET TO BE ISSUED** This property can be purchased but any sale and purchase agreement must be conditional upon the title being issued and being acceptable to your lawyer.

☐ Appurtenant to/ Dominant Tenement/ Benefited Land: If an Interest begins with or includes these words, it is for the benefit of this land.

☐ Subject to/ Servient Tenement/Burdened Land: If an Interest begins with or includes these words, this land gives the benefit. If the wording includes the phrase 'In Gross', the benefit is usually given to a City Council or a supplier of services like water, sewage, and communications.

☑ Easements: These grant benefits or rights to cross land and usually refer to above-ground or underground services and Rights of Way. Sometimes they refer to Party Walls.

☐ Resource Management Act 1991. If the property was developed after 1991 there should be reference to the RMA which usually implies the development was consented under that Act.

☑ Fencing: Covenant, Provision or Agreement. A Covenant usually has a life of only 12 years or applies until the first purchaser sells it on (unless it involves Crown land). A Provision is usually like a Covenant. Fencing Agreements differ and are usually an arrangement between current owners and neighbours to do (or not do) something that expires when one party sells. If it is registered on the title its terms can pass on to and commit a new buyer to the agreement.

☑ Land Covenant, Encumbrance: This will usually bind current and future owners to conditions such as construction style, fence height, position of buildings etc and is often very detailed. Buyers must be clear as to how these conditions might affect their future use of the property.

☑ Consent Notice: Consent notices are usually issued by City Councils making certain stipulations about construction and land use. Its terms will probably bind current and future owners.

☐ Building Line Restriction (ancient measure from road): Even if noted, these now rarely apply and have been replaced by conditions in the District Plan. Internal Building lines may still apply.

☐ Legal, Crown Minerals, Acts of Parliament, Gazette Notices etc: These items imply Crown ownership applies or some legislative effect. We suggest you seek legal advice.

☐ Cross lease Properties (see below) We will attach a copy of the Memorandum of Lease (if it is available). The Lease contains the rules applying to occupation and use. These are usually standard conditions but if we are aware of special rules we (or your lawyer) can explain them to you. The Title includes a Flats Plan and you should compare this to what is actually on the property and check for a changed 'footprint'. Please also ask your lawyer to explain this type of Estate, to check the Flats Plan against the Lease and to check the wording of the Lease.

Cross Lease Title **N/A** ☑

☐ No ☐ Yes In relation to the original floor plan, have there been any alterations to the external dimensions of the dwelling?

☐ No ☐ Yes Are any of the alterations enclosed and attached to the dwelling? (Refer to Clause 6.4 (2) of the Sale & Purchase Agreement.

☐ No ☐ Yes ☑ N/A Is there evidence of the other cross lease owners approval of these changes?

☐ No ☐ Yes ☑ N/A Does the flats plan appear accurate?

☐ No ☐ Yes The salesperson has obtained a copy of the memorandum of lease and it is available for viewing. Please ensure your lawyer explains any restriction that may affect your use of the property on the memorandum of lease.

Unit Title **N/A** ☑

☐ No ☐ Yes Pre-Contract Disclosure Statement is available

☐ No ☐ Yes A longterm maintenance plan is available

District Plan Authority Property Zoning (proposed district plan) Residential

☑ No ☐ Yes Is the property categorised as being in a flood area? If yes, attach a map

☑ No ☐ Yes If there are any other features that may be of interest to a prospective purchaser, note it below.

Additional Salesperson notes regarding the District Plan (Local Authority Plans/ Intentions): (if required)

Information to Purchasers

A **Title** is a legal document that sometimes contains complex content beyond the knowledge of the Salesperson. The Salesperson's opinion and information, while given here with the best of intentions, may not be legally or factually correct. It is important that you are clear on what notations on the Title mean and how they may impact on your purchase and/ or the use of the property. **We strongly recommend that you seek the professional advice of your lawyer or make further enquiries, especially if you have any doubts about the information given or have questions that the salesperson is unable to answer to your satisfaction.**

District Plan (Local Authority Plans/ Intentions): NB: Any or no comment in the 'Salesperson Note' section above regarding the district plan does not purport to be exhaustive. We recommend you consult your local authority for more information.

Size etc. of Land and Buildings: The information in the Title, marketing material and other documents is derived from outside sources and we cannot guarantee its accuracy. **If buyers have any doubts about the given information they are strongly recommended to make further enquires or seek professional advice.**

Notes on Weathertightness, Dux Qest and Asbestos

Cladding products or systems as follows, may be associated with weathertightness issues. These products include but are not limited to:

- Polystyrene
- Cement Board Sheeting (often texture-coated)
- Stucco

Building designs with the following may also be considered at risk:

- narrow or no eaves
- internal gutters
- decks above ground floor
- And/or exposed flat areas above internal rooms, e.g. deck, roof.

From September 1995 to 2005, kiln dried untreated timber was permitted to be used in construction and building designs of that era often excluded cavities in external walls.

20,000 to 40,000 houses in the mid 1970's to late 1980's were built using Dux Qest plumbing, a system known for spontaneously failing. Many properties have been replumbed, wholly or partially.

Houses built pre-2000's may have some building products that contain **asbestos.**

Weatherside is a tempered hardboard, made from wood fibres which have been glued together. Issues occur when moisture ingress causes the glue in the cladding to fail, this is often due to un-maintained paint systems, cracking, or damage to the cladding.

Purchaser's please note carefully:

- The Vendor is only responsible for work they have completed.
- The Salesperson must disclose any issue known to them but is not required to uncover hidden defects and is not qualified to assess documents such as LIM reports, council files and building reports.

Purchasers are strongly advised to seek professional advice to establish the true condition and status of the property, so they are aware of any existing or possible future problems, as well as the property's suitability for their use, even if you are in competition or in a 'multi-offer' situation.

The Salesperson has no conflict of interest marketing this property. If so, it is noted here: ☑ No Conflict ☐ Yes then if yes...
