Title Information (Salesperson to complete after listing and before launching on the market)

Address 9/29 Ashley Place, Papamoa Beach, Papamoa Title doc obtained on:

ESTATE ☐ Freehold ☐ Cross-Lease (Fee Simple) ☑ Stratum in Freehold (Unit Title) or:

NB: A title will not provide any guarantee regarding boundaries or land size and nor can the salesperson. If you have any doubts you should research further or engage a surveyor to verify the exact boundaries. Mortgages or Caveats: These should be cleared on settlement (i.e before you move in.) If an interest or memorial on the title applies to this land the box next to the explanation is to be marked.

☐ **TITLE YET TO BE ISSUED** This property can be purchased but any sale and purchase agreement must be conditional upon the title being issued and being acceptable to your lawyer.

☐ Appurtenant to/ Dominant Tenement/ Benefited Land: If an Interest begins with or includes these words, it is for the benefit of this land.

☐ Subject to/ Servient Tenement/Burdened Land: If an Interest begins with or includes these words, this land gives the benefit. If the wording includes the phrase 'In Gross', the benefit is usually given to a City Council or a supplier of services like water, sewage, and communications.

☐ Easements: These grant benefits or rights to cross land and usually refer to above-ground or underground services and Rights of Way. Sometimes they refer to Party Walls.

☐ Resource Management Act 1991. If the property was developed after 1991 there should be reference to the RMA which usually implies the development was consented under that Act.

☐ Fencing: Covenant, Provision or Agreement. A Covenant usually has a life of only 12 years or applies until the first purchaser sells it on (unless it involves Crown land). A Provision is usually like a Covenant. Fencing Agreements differ and are usually an arrangement between current owners and neighbours to do (or not do) something that expires when one party sells. If it is registered on the title its terms can pass on to and commit a new buyer to the agreement.

☐ Land Covenant, Encumbrance: This will usually bind current and future owners to conditions such as construction style, fence height, position of buildings etc and is often very detailed. Buyers must be clear as to how these conditions might affect their future use of the property.

☐ Consent Notice: Consent notices are usually issued by City Councils making certain stipulations about construction and land use. Its terms will probably bind current and future owners.

☐ Building Line Restriction (ancient measure from road): Even if noted, these now rarely apply and have been replaced by conditions in the District Plan. Internal Building lines may still apply.

☐ Legal, Crown Minerals, Acts of Parliament, Gazette Notices etc: These items imply Crown ownership applies or some legislative effect. We suggest you seek legal advice.

☐ Cross lease Properties (see below) We will attach a copy of the Memorandum of Lease (if it is available). The Lease contains the rules applying to occupation and use. These are usually standard conditions but if we are aware of special rules we (or your lawyer) can explain them to you. The Title includes a Flats Plan and you should compare this to what is actually on the property and check for a changed 'footprint'. Please also ask your lawyer to explain this type of Estate, to check the Flats Plan against the Lease and to check the wording of the Lease.

Notes on Weathertightness, Dux Qest and Asbestos

Cladding products or systems as follows, may be associated with weathertightness issues. These products include but are not limited to:

- Polystyrene
- Cement Board Sheeting (often texture-coated)
- Stucco

Building designs with the following may also be considered at risk:

- narrow or no eaves
- internal gutters
- decks above ground floor
- And/or exposed flat areas above internal rooms, e.g. deck, roof.

From September 1995 to 2005, kiln dried untreated timber was permitted to be used in construction and building designs of that era often excluded cavities in external walls.

20,000 to 40,000 houses in the mid 1970's to late 1980's were built using Dux Qest plumbing, a system known for spontaneously failing. Many properties have been replumbed, wholly or partially.

Houses built pre-2000's may have some building products that contain **asbestos**.

Weatherside is a tempered hardboard, made from wood fibres which have been glued together. Issues occur when moisture ingress causes the glue in the cladding to fail, this is often due to un-maintained paint systems, cracking, or damage to the cladding.

Purchaser's please note carefully:

- The Vendor is only responsible for work they have completed.
- The Salesperson must disclose any issue known to them but is not required to uncover hidden defects and is not qualified to assess documents such as LIM reports, council files and building reports.

Purchasers are strongly advised to seek professional advice to establish the true condition and status of the property, so they are aware of any existing or possible future problems, as well as the property's suitability for their use, even if you are in competition or in a 'multi-offer' situation.

The Salesperson has no conflict of interest marketing this property. If so, it is noted here: ☐ No Conflict ☐ Yes then if yes...
