When it comes to buying property there's no such thing as too much research. Your local real estate agent can provide you with lots of useful background information on the neighbourhood and can get you up to speed on similar sales in the area. At the same time, I can help you organise a home loan pre-approval to give you the confidence to make an offer.

- I Work with NZ's widest range of lenders – to ensure you're aware of your maximum borrowing capacity
- I organise a pre-approval – essentially giving you the green light from a lender to spend upto a certain amount
- I put you in a much better negotiating position – by ensuring your finance is approved with the right lender for your needs.

As Kapiti Coast Loan Market adviser, I understand each lender's criteria. I know who will lend you the amount you need to secure the property of your dreams.
