The Master of Healthcare Administration (MHA) program provides students with the leadership skills and technical tools needed to improve the human condition and prepare for increasingly responsible leadership roles across a broad spectrum of healthcare-delivery organizations. The small size of the MHA program ensures one-on-one attention from professors, as well as opportunities to work with some of the nation’s top-ranked hospitals, healthcare facilities, and executives.

GROW YOUR NETWORK

Meet Engaged Alumni
The MHA program has a growing network of alumni who are eager to mentor current students and share their experience of how the program helped shape their careers.

Connect with Industry Executives
MHA students network with industry executives throughout the program, many of whom are their class instructors, present guest lectures, or join events as program advisory board members.

Join the UMentor Program
MHA students can form a lasting partnership with a mentor through the UMentor Healthcare Leadership program. During the program, students connect with their mentor for professional advice, explore potential career opportunities, and see how classroom knowledge is applied to the industry.
