The Master of Healthcare Administration (MHA) program provides students with the leadership skills and technical tools needed to improve the human condition and prepare for increasingly responsible leadership roles across a broad spectrum of healthcare-delivery organizations. The small size of the MHA program ensures one-on-one attention from professors, as well as opportunities to work with some of the nation’s top-ranked hospitals, healthcare facilities, and executives.
CAREER SERVICES
MHA students benefit from working with the MHA career development manager, who provides career-focused training and resources, and facilitates connections with students and employers. Leveraging their internship experience and network of local executives, MHA students secure full-time positions and administrative fellowships at leading healthcare organizations across the U.S.

QUICK HIGHLIGHTS

- Take evening & afternoon classes
- Complete a summer internship
- Graduate in two years
- Attend full-time
- Complete 51 credit hours
- Network with healthcare executives
- Complete 51 credit hours

GET INVOLVED

MHA Student Association
The MHA Student Association is an opportunity for students to connect with peers, engage with the MHA community, and participate in service projects. Association events help students increase their professional skills and explore key healthcare administration skills.

ACHE Leadership Congress
Each year, the MHA program provides support for select students to attend the American College of Healthcare Executives (ACHE) Leadership Congress with more than 4,000 industry professionals. Students find value in the networking, education, and innovative discussions available at the event.

Healthcare Case Competitions
The MHA program supports students in participating in local, regional, and national case competitions. Through case competitions, students test their knowledge outside of the classroom and increase their experience. Past student teams have succeeded competitively and gained valuable contacts.

Application & Admission Information

Meet Engaged Alumni
The MHA program has a growing network of alumni who are eager to mentor current students and share their experience of how the program helped shape their careers.

Connect with Industry Executives
MHA students network with industry executives throughout the program, many of whom are their class instructors, present guest lectures, or join events as program advisory board members.

Join the U Mentor Program
MHA students can form a lasting partnership with a mentor through the U Mentor Healthcare Leadership program. During the program, students connect with their mentor for professional advice, explore potential career opportunities, and see how classroom knowledge is applied to the industry.
