Designed to provide the advanced education necessary to manage the technology of business, the Master of Science in Information Systems (MSIS) program offers business education with a practical slant. Industry-driven coursework and opportunities for hands-on experience prepare our graduates for leadership positions in one of today's fastest growing job sectors.

With evening courses and four areas of specialty, students can fit the program to their schedule and customize their degree.
**Capstone Project**
Students complete a hands-on capstone project as the culmination of their degree. In the capstone, students put their classroom knowledge to work to complete a complex information systems project. The capstone project is three credit hours completed over three semesters.

**Concurrent Degrees**
Students have the option to earn a Full-Time MBA, Professional MBA, MBA Online, MS Business Analytics, or MS Finance concurrently with the MSIS. Learn more at [Eccles.link/MSIS-Concurrent](Eccles.link/MSIS-Concurrent).
