Frump Vice **Manipulating Emotions**

There is something you must know about yourself, Frump.

We all have our preferred vices and according to my 7 Vices Personality Type model your vice of choice is 'Manipulating Emotions'.

This means that you are rich in emotions and that you are the key person in a wonderful bonded team spirit.

But...Dear Frump,

Sometimes you are suffering from your own need to socialize. And as a result people, on their 'shadow' day, can use your need to blend against you. I would love to teach you how to give yourself a little more visibility and power in your presence. It really helps a lot to get rid of those little bandits.

Sign up for my free course Build your Image in 30 days. And I will show you how you can give your image visibility and depth so the people around you can see how good you really are.
