

## Restoration Design

## Reach Characteristics

- Stage 2
- Riparian vegetation
- Paleo channel on river left
- Signs of old beaver dams

- Bank Blasters Objectives
  - Erode banks
  - Widen channel
  - Recruit sediment

## Main Channel BDA's Objectives

- Deep water cover
- Deposition
- Bank erosion
- Raise water table
- Lower water velocity

- Relic Channel  
BDA

- Objectives

- Maintain  
water table  
connectivity  
year-round

# Adaptive Management

Success!
