

Pataha Creek - Recap

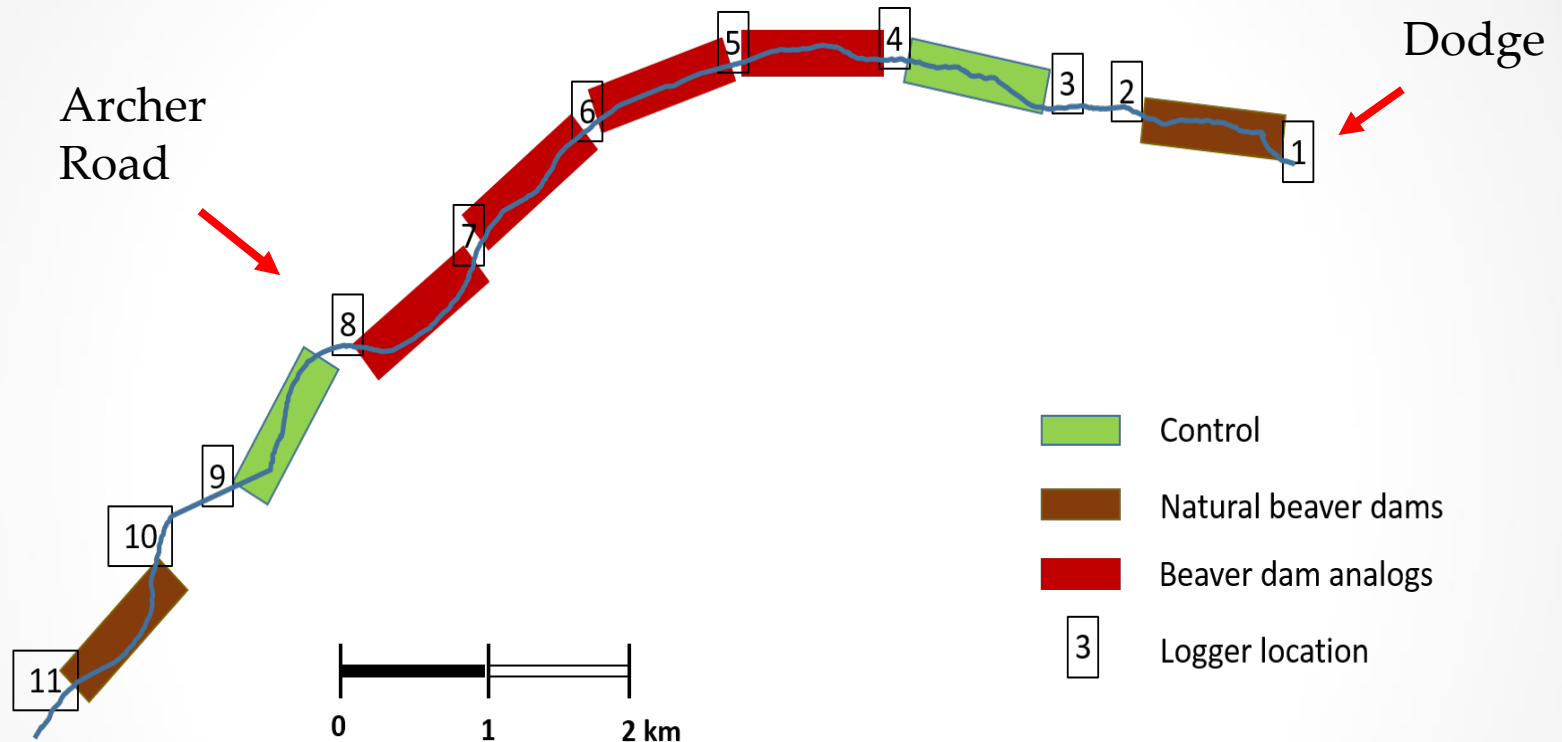

DOE 2016 Funding BDAs and Trial Planting

Goals

- Habitat diversity instream
- Water quality and quantity
- Beaver expansion
- More woody vegetation

Monitoring Design

Plant large diameter willow across 4 km section of Pataha Creek

Evidence for
an incision
story?

SRFB 2015 Funding: Trial BDAs

DOE 2016 Funding BDAs and Trial Planting

BDA

New
floodplain
deposit

Evidence beavers are helping

Willow abundant and shading out some reed canary

Evidence beavers are helping

Dams held in 2016 and caused deposition

Stratigraphy: 2016

Biological Evidence
