

# Piping & Engineering Design Specialist Wear Lining Materials

## OUR COMPANY'S LONG HISTORY:

- **HMA Wear Solutions** have been designing and manufacturing piping systems for over 35 years
- A business built on the core fundamentals of: Respect, Trust, Safety, Quality and Reliability
- A focus on engineering & technical support, combined with optimal material selection and unique manufacturing
- The expertise of our staff and the depth of experience, provides the knowledge to ensure plant piping and equipment is enhanced
- A well-established global supply chain
- Globally competitive and able to operate locally
- A piping specialist company that has been at the forefront of the development of abrasion resistant linings

## BENEFITS TO YOUR OPERATION: Chile and Peru considerations:

- Safety in design is of the highest consideration
- Increasing plant process recovery by way of increased plant stability
- Providing a robust and resilient system that is suitable for your local conditions
- System evaluation and application of Wear Lining Systems that are the most cost effective
- Reducing maintenance frequency
- Increasing pipeline and equipment operating life
- Reducing any unscheduled breakdowns due to piping failures
- Increasing workplace safety
- High return on investment

*“By continually considering and evaluating all the above HMA Wear Solutions provide the highest return on investment for plant piping and lining systems, guaranteed”*
