

FL262 FREEDOM™ LOADER

FL262 FREEDOM™ LOADER

Introducing the FL262, the first product in Boart Longyear's emerging series of FREEDOM™ rod loaders, handlers and presenters. Our cutting-edge range has been engineered with drillers' safety and productivity front-of-mind.

FREEDOM TO DRILL

The FREEDOM series is your best option for reducing the risk of hand and back injuries while handling rods.

FREEDOM TO MOVE

Using the Freedom Loader remote control will enable you to work from a safer location, away from the risks of moving rods.

FREEDOM TO BID

Only the FREEDOM series complies with today's rigorous CE standards, so you will have the freedom to bid on jobs with some of the most stringent health and safety standards.

Specification	Metric Units	U.S. Units
Rod Storage - Diamond Core NQ™	660 m	2200 ft
Rig Compatibility	Tilting Top Drive Heads	
Rod Length Handling Capability	1.5 m to 6 m lengths	5 ft to 20 ft lengths
Maximum Reach (to rod sloops) from center of rod tray.	3,763 mm	12 ft 4 in
Minimum Hydraulic Flow from Aux Power Source <small>*Operational speed will be affected when using low hydraulic power inputs levels.</small>	70 L/min @ 120 bar	18.5 gal/min @ 1740 psi
Rod Loader Setup and Operation Controls	Radio Remote Control with manual backup	
Engine (for setup functions only)	Hatz 1B30V Diesel Engine, Tier 4 final
