Mining companies from various countries participate in 100% online Business Meetings and international exhibition

One of the most relevant and traditional business-promoting events for the mineral sector and for extensive production chains in various countries will be 100% online this year. [EXPOSIBRAM – Expo & Congresso Brasileiro de Mineração 2020](#) will be held from 24 to 26 November and [registration is free](#), even for its renowned Brazilian Mining Congress, in order to facilitate the participation of entrepreneurs and professionals, among other stakeholders, around the world. Another major attraction is the business meetings, which will put up front to face large mining companies and suppliers from various sectors. EXPOSIBRAM will also have space for technical lectures, short courses and cultural attractions. The realization is the Brazilian Mining Institute (IBRAM).

The mining companies intend to invest a total of US\$ 37.1 billion in new mineral ventures and in the expansion of projects in Brazil by 2024, according to IBRAM. Much of this total will be applied to the contracting of services and the purchase of products at EXPOSIBRAM, the Institute informs.

How to be sponsor of EXPOSIBRAM 2020

The 2020 edition will be the first in almost 40 years of history to be 100% online. Therefore, it is expected a significant promotion of the brands of exhibitors and especially sponsors around the world. Being a sponsor of EXPOSIBRAM is a strategic opportunity for brands to position themselves with greater relevance in the competitive world of mining.

Your company will have great exposure in the disclosure phase, that is, the sooner the decision for the sponsorship quota occurs, the greater the visibility. This is still enhanced by the media's interest in relation to the event, an additional result to this strategic investment.
