

Epiroc Rotary Products

Drill Pipe

Ø 9-1/4" x 35 feet, thread 6" ACT-115 for Pit Viper 351/316

High Value Performance for Tomorrow's Expectations

Epiroc features the latest technology in Drill pipes:

- **Drill pipe tubing**
 - Secoroc drill pipe bodies are manufacture from premium quality heat-treated seamless Teamalloy™.
 - The tubes have special raw material with yield strength, tensile strength, torsional strength and resilience in order to reduce buckling.
 - The tubing have an alloy metal composition highly resistance to wear.
- **Tool join connection**
 - The thread design has double entry in order to reduce the time of connection and the quick uncouple of the products.
- **Thread design**
 - The thread ACT-115 is a special design to resist breakage.
 - The thread ACT-115 is a special design to resist wear.
- **Application**
 - 12,000 – 46,000 psi, 83 - 317 MPa UCS Formations

Product Specifications:

Article Number/Catalog Code:

92010714

Epiroc Code:

2R3-235-1066-B61-L9,T-32

Tool join Type:

Duralloy™

Tubing Type:

TeamAlloy™

Tool joins:

- Threads Type connections:

- 6" ACT-115 ®

- Type Box:

- 3 way slotted Box end for Pit Viper 351/316

- Type Pin:

- Flats Pin end for Pit Viper 351/316

- Tool join Wear Protection:

- Full Armor / Hardfacing Heavy Duty

- Thread Type design:

- W,B (thread wear resistance, thread resistance breakage)

Metric bit diameter:

Ø 234 mm

Minimum acceptable diameter (wear):

Ø 8 ¼" / Ø 209 mm

Product weight:

4.160 lbs / 1.887 kgs

Operating Suggestions:

Weight on pipe:

32.000 – 100.000 lbs

Rotary Speed:

50 to 120 RPM
