

# BIG TYRE

The Tyre, Wheel & Rubber Track Specialists

Name	Description	Photo #
Heavy Duty Bucyrus FBL55 Wheel with Chain Guard	Heavy duty, solid rubber wheel to suit Bucyrus FBL55 roof support carriers. Manufactured in Australia from premium quality materials using our world class rubber bonding technique. Designed with a diamond tread pattern for use with wheel protection/traction chains. Big Tyre's custom chain guard prevents chains from slipping and damaging the brake lines. Wheel comes with a 2 year pro-rata warranty. Big Tyre's solid rubber wheels provide a high load capacity relative to the wheel size; improved safety and reduced downtime compared to pneumatic tyres.	
Heavy Duty Wheel to suit Bucyrus FBR15	Heavy duty, solid rubber wheel designed to suit Bucyrus FBR15 ram cars. Designed to replace a 17.5R25 pneumatic tyre. Manufactured in Australia from premium quality materials using our world class rubber bonding technique. This wheel comes with a 2 year pro-rata warranty. Big Tyre's solid rubber wheels provide a high load capacity relative to the wheel size; improved safety and reduced downtime compared to pneumatic tyres.	
Heavy Duty Wheel to suit Sandvik TS570	Heavy duty, solid rubber wheel designed to suit Sandvik TS570 underground shield haulers. Manufactured in Australia from premium quality materials using our world class rubber bonding technique. Comes with a 2 year pro-rata warranty. Big Tyre's solid rubber wheels provide a high load capacity relative to the wheel size; improved safety and reduced downtime compared to pneumatic tyres.	
Heavy duty Sandvik TS490 wheel with chains	Heavy duty, solid rubber wheel designed to suit Sandvik TS490 underground shield haulers. Designed with a diamond tread pattern for use with chains. Manufactured in Australia from premium quality materials using our world class rubber bonding technique. Backed by a 2 year pro-rata warranty. Wheel comes fitted with high quality German wheel protection/traction chains.	
Heavy Duty Wheel to suit Caterpillar SH660	Heavy duty, solid rubber wheel to suit Caterpillar SH660D roof support carriers. Manufactured in Australia from premium quality materials using our world class rubber bonding technique. Comes with a 2 year pro-rata warranty. Big Tyre's solid rubber wheels provide a high load capacity relative to the wheel size; improved safety and reduced downtime compared to pneumatic tyres.	
Custom designed solid rubber wheels	Big Tyre designs and manufactures customised solid rubber wheels to suit customer requirements such as wheel size, rim fitment, load carrying capacity, tread pattern, heat generation characteristics, cut/abrasion resistance, corrosion resistance, footprint, ground pressure, chamfers etc. We can design wheels to replace pneumatic tyres to improve access to sites with limited clearance by reducing the height of the machine. Moulding is available in some cases and can include custom branding. Our wheels are manufactured in Australia from premium quality materials using our world class rubber bonding technique and typically come with a 2 year pro-rata warranty.
