HINGED FASTENER

Ideal for rubber plied and PVC solid woven belting, the Selflex Rivet Hinged Fasteners delivers the performance, long life, and easy installation that maximize belt availability.

Features and Benefits:

- Faster installation compared to vulcanisation process
- Maximum holding ability via patented steel bolts without damage to belt carcass fibers.
- Built-in viewport for easy fastener positioning.
- Easy joint separation by simply removing the hinge pin.
- Easy installation with our patented design bolt.
- Suitable for working on small diameter rolls.

Applications:

Underground and surface mining, coal and hard rock, cement and asphalt plants, pulp and paper, sand and gravel, plants and other demanding applications.

HINGED AND STAPLED FASTENER

With pre-inserted staples and a one-piece strip design, Selflex Hinged and Stapled Fasteners makes splicing quick and easy.

Features and Benefits:

- Strong and impact-resistant splice.
- Abrasion resistant splice.
- The front edge of the fastener is beveled to allow it to interface smoothly with conveyor components.

Applications:

Package and baggage handling, cased goods, parts, food and agricultural products.

WIRE HOOKS

Features and Benefits:

- Stainless steel material.
- Quick, economical installation.
- Low-profile fastener.
- Double-staggered-grip pattern that doesn't degrade the integrity of the belt carcass.
- Operates quietly and interfaces seamlessly with conveyor components.
- Faster installation compared to vulcanisation method

Applications:

Depending on their size wire hooks can be used with laundry belts, lighth-duty PVC belts, filter cloth, filter belts, heavy-duty PVC belts, rubber conveyor belts, heavy-duty conveyor belts.

BELT LACING

For systems with pulleys as small as 1" (25 mm) diameter, Selfflex Lacing System offers an economical, low-profile splice.

Features and Benefits:

- One-piece design provide uniform tension across belt width.
- Engineered to prevent pieces from working loose from belt.
- Faster installation compared to vulcanisation method

Applications:

Conveyor and transmission belts, as well as sanitary operations.

PLATE FASTENER

Engineered to meet the demands of the toughest material-handling applications, Selflex Plate Fasteners provide a strong, sift-free splice with superior holding ability. Their strength derives from a combination of top-and-bottom plate compression and high-tensile-strength bolts.

Features and Benefits:

- Specially formed teeth penetrate belt carcass, without damaging fibers.
- Quick and easy on-site installation thanks to templets and piloted bolts that provide automatic alignment.
- Patented BR12-R-F and BR20-R-F series Fixed Bolt Plate Fasteners have fixed bolts on the plate and do not fall down during installation.
- Faster installation compared to vulcanisation method

Applications:

Sand, gravel, crushed stone, cement, mines, salt and fertilizer factories.

SPIRAL LACE FASTENER

Features and Benefits:

- Low profile splice
- Quick and easy to install
- Non-metallic seam
- Easy change pintle pin seam
- Low cost efficiency
- Webbing weaving optimized for increased strength
- Use only the highest quality raw materials for best results
- Washed of contaminates for better adhesion

Applications:

Light duty industrial belts , metal dedectors, x-ray scanning machines, food processing and packaging, pharmaceutical processing and packaging, luggage and package handling.

RUBBER SPLICE

Rubber Splice is a strong and flexible splice which is a composition of rubber structure, with strong textile plies and metal inserts, which allows installation with steel screws. There are different types of rubber splice for different uses like Abresion Resistant (AR), Heat Resistant (HR) 150 °C, High Temp. Resistant (HTR), Cold Resistant(LTR), Oil and Grease Resistant (OR), Oil and MOR Resistant, Fire Resistant(FR).

ELEVATOR BUCKETS

Features and Benefits:

- Plastic elevator buckets are manufactured from polypropylene and metal elevator buckets are produced from steel
- Strong and long lasting
- Flat washers are used with plastic elevator buckets and bowl washer are used with metal elevator buckets

Options:

- The distance between the holes can be adjusted
- There are different sizes as shown in the chart
- Can be shipped with nylon nuts

Packaging:

Can be shipped inside carton boxes or inside sacks

Applications:

Elevator buckets are used over vertical elevators

SPIRAL FASTENER

By their special design they fastens the elevator buckets to the elevators strongly.

Features and Benefits:

- Steel elevator bucket fasteners are manufactured in DIN 15237 standards.
- Strong and long lasting
- Silver or gold color plated

Options:

- Can be shipped with nylon nut and with flat or bowl washer
- Various bolt sizes available

Applications:

Used in vertical elevators to fasten the buckets to the elevators

ELEVATOR BUCKET OVAL BELT FASTENERS

Features and Benefits:

- Long lasting and durable to corrosion
- Gold color plated

Applications:

Used in vertical elevators to fasten the buckets to the elevators.

SCREEN HOOKS AND BOLTS

These are the so called U BOLTS and J BOLTS

Options:

- Available in various lengths and diameters

Packaging:

- Packaged with carton boxes. EKU05-200 and EKU05-250 are shipped as 300 pcs/box, the others are shipped as 200 pcs/box

Applications:

- U BOLT'are used at mines; sand, gravel and coal quarries and kind of crushing and screening plant to fix the sieve to the body of the screen
- J BOLT's are used to stretch the sieves over the screen

SELFLEX is established as the first Turkish manufacturer at its sector in 1949, and since then leading conveyor belt fasteners sector in Turkey.

Our brand, besides over 500 respected customers in Turkey and with export over 25 countries, is on the way of being a world brand of its sector. With the proud of this success, with responsibility, our company is going on manufacturing with latest technology at our modern factory always putting quality and trust at the first place. Thanks to our R&D investments to meet customer needs our product range is expanding gradually.

Our product range includes belt fasteners such as hinged fasteners, hinged and stapled fasteners, wire hooks, plate fasteners and belt lacings; elevator metal and plastic buckets, elevator bucket fasteners, elevator bucket oval belt fasteners; screen hooks and bolts; steel toe cap and waist iron for safety shoes.
