COMPANY PROFILE

企业介绍

公司简介

COMPANY PROFILE

广厦房屋成立于2001年，注册资金1亿元，是一家集专业设计、制造、销售、施工于一体的规模化大型现代化企业，国家高新技术企业。集团旗下拥有江苏公司、广东公司、成都公司、北京公司、辽中分公司、海南公司、国际公司与供应链公司，服务范围遍布全国乃至海外，此外还拥有专门的设计院公司、建筑劳务公司、军民融合事业部等。广厦房屋致力于装配式建筑、集装箱房的研发与制造，主营产品有打包式箱房、快装房等，广泛应用于各类工程营地、军事营地、市政临时用房、别墅住宅、旅游度假、商业用房、教育用房、灾区安置房等场景。

GS Housing was established in 2001 with a registered capital of 100 million RMB. It is a large-scale modern&high-tech enterprise integrating professional design, manufacturing, sales and construction. The group owns Jiangsu,Guangdong, Chengdu, Hainan,Beijing companies(include Liaozhong Branch), International Company and Supply Chain Company. The service scope is all over China and overseas. In addition, GS Housing has the specialized design institute company construction labor service company, Military-civilian integration division, etc. We are committed to the research& development and manufacturing the prefabricated buildings, flat packed container houses... which are widely used in various scenarios, such as engineering camps, military camps,temporary municipal houses, villa residences, tourism and vacation, commercial houses, education houses, and resettlement houses in disaster areas.

多年来，广厦房屋励精图治，不断提升企业综合生产能力，专注于升级产品品质、提高技术实力、研发产品新思路等方面。公司拥有钢结构专业承包二级资质、建筑金属（墙）设计与施工壹级资质、建筑行业（建筑工程）设计乙级资质、轻型钢结构专项设计乙级资质，并拥有国家级专利48项。广厦房屋已加入中国钢结构行业协会，参编行业标准。设计建造的产品通用性强，在临建行业属于标准制定型企业。

Over the years, GS Housing has made great efforts to improve the overall production capacity of the factories, focusing on upgrading product quality, improving technical strength, and developing new products... GS housing has the Class II qualification for steel structure professional contracting, Class I qualification for architectural metal (wall) design and construction, Class II qualification for construction industry (construction engineering) design, Class II qualification for special design of light steel structure, and 48 national patents. We have joined China Steel Structure Industry Association and participated in the compilation of industry standards. Our designed products are highly versatile and GS Housing belongs to the company that leads the development direction of the temporary construction industry.

服务体系 SERVICE SYSTEM

广厦房屋拥有完善的销售体系，在全国范围内开展装配式房屋的销售、租赁、回购、拆装、仓储和置换业务。设有健全的售后服务系统，专业的售后服务队伍，实行跟踪服务，为每一个项目进行系统编号，专设档案，为客户提供快捷便利的上门服务。

GS Housing has the complete sales system and carries out the business of sales, leasing, repurchase, disassembly, warehousing and replacement of prefabricated houses nationwide, in addition, we equipped with the professional after-sales service system & team, numbered and filed each project in the system for convenience to follow the project situations, fast and convenient door-to-door service can be provided too.

广厦房屋将做迎合市场的品牌管理，大力进行模块化房屋的商用探索，深挖客户需求：餐饮、商超、绿化、排污、土建、共享设施等领域开发；并坚持科技先行的理念，打造“互联网+”的销售模式，将传统的线下实体与网络销售进行深度结合，让服务更加便利！

GS Housing will do brand management that caters to the market, vigorously explore the commercialization of modular houses, and deeply dig customer needs: develop the industries in catering, supermarkets, green, sewage, civil engineering, shared facilities... adhere to the concept of "technology first" to build The "Internet +" sales model, and deeply integrates traditional offline entities and online sales to make more convenience services!

营销网络

MARKETING NETWORK

伴随广厦房屋的全国布局，在国内建立了华东（常州）、华南（佛山）、华西（成都）、华北（天津）、东北（沈阳）五大运营生产基地。共设立了南京、苏州、杭州、合肥、上海、佛山、广州、珠海、深圳、海口、成都、重庆、郑州、北京、天津、雄安、沈阳等几十余个办事处，营销网络遍布国内主要地级以上城市，可实现全国范围内供货标准一致，为客户近距离提供便捷、专业、高效的服务。

With the national layout of GS housing, five operating production bases have been established in China: East of China (Changzhou), South of China (Foshan), West of China (Chengdu), North of China (Tianjin), and Northeast of China (Shenyang). More than dozens of offices have been established in Nanjing, Suzhou, Hangzhou, Hefei, Shanghai, Foshan, Guangzhou, Zhuhai, Shenzhen, Haikou, Chengdu, Chongqing, Zhengzhou, Beijing, Tianjin, Xiong'an, Shenyang, etc. The marketing network covers main domestic cities of China, can achieve the consistent supply standards across the country and provide customers with convenient, professional and efficient services at close range.

同时，广厦房屋成立了专业的国际公司，拥有自主进出口权，五大运营基地占据全国五大港口发货的地域优势（上海港、连云港、广州港、天津港、大连港）。产品远销越南、老挝、安哥拉、卢旺达、埃塞俄比亚、坦桑尼亚、玻利维亚、黎巴嫩、巴基斯坦、蒙古国、纳米比亚、沙特等多个国家和地区，并已在德国、肯尼亚、印度、斯里兰卡、孟加拉、缅甸、韩国等国家和地区建立了代理商网络。

At the same time, GS Housing has established a professional international company with independent import&export rights. Our five operating production bases occupies the geographical advantage of the five major ports (Shanghai, Lianyungang, Guangzhou, Tianjin, Dalian Port). Products are exported to Vietnam, Laos, Angola, Rwanda, Ethiopia, Tanzania, Bolivia, Lebanon, Pakistan, Mongolia, Namibia, Saudi Arabia and other countries and regions, and have established a network of agents in Germany, Kenya, India, Sri Lanka, Bangladesh, Myanmar, South Korea etc.

工程团队 ENGINEERING TEAM

广厦房屋拥有独立的工程公司，工程公司是广厦房屋的后方保障，肩负着广厦所有产品的施工与安装。在多年的发展建设过程中，形成了一支“特别能攻关，特别能战斗”的高效工程队伍。在施工作业中，他们严格遵守公司的相关规定，不断提高安全施工、文明施工和绿色施工的工作意识。以“广厦出品，必属精品”的安装理念要求自己，确保每一个项目无论进度、质量、服务都能全面满足客户的需求。

GS Housing has an independent engineering company. The engineering company is the rear guarantee of GS Housing and is responsible for the construction and installation of all products of GS Housing. A highly efficient engineering team "particularly capable of tackling key problems and particularly capable of fighting" has been formed after years of development and construction. In the construction work, they strictly abide by the company's relevant regulations, and continuously improve the work awareness of safe construction, civilized construction and green construction. With the installation concept of "GS Housing products, must be the high-quality products", we are required to ensure that every project can fully meet the needs of customers regardless of the progress, quality, and service.

技术团队 TECHNICAL TEAM

广厦房屋秉承着“专注、担当、联合、共享”的企业价值观，用技术赢得市场，以创意服务取得信誉，竭诚为广大客户提供优质、高效、快捷的服务。

公司拥有独立的设计院，担负着公司各项技术相关工作，包括新品研发、产品升级、方案设计、施工图设计、预算、技术指导等。专业化设计团队领衔广厦房屋品牌，站在客户角度，解读装配式建筑内涵，为不同客户提供定制化技术指导方案，打造独一无二的专属空间。

GS Housing adheres to the corporate values of "focus, responsibility, unity, and sharing", wins the market with technology, gains credibility with creative services, and wholeheartedly provides high-quality, efficient and fast services to customers.

GS Housing has an independent design institute, responsible for the company's various technical related work, including new product development, product upgrades, program design, construction drawing design, budget, technical guidance, etc. The professional design team leads GS housing brand to provide the customized technical guidance programs for different customers, and create a unique, exclusive space with the perspective of customers, interprets the connotation of prefabricated buildings.

MODULAR AND INDUSTRIALIZED PRODUCTION METHODS
ARE THE ONLY WAY TO BUILD HIGH-QUALITY HOUSES
模块化、工业化生产方式是建设高品质房屋的必由之路

FACTORY INTRODUCTION

工厂介绍

基地规模 PRODUCTION BASES SCALES

广厦房屋全国五大工厂，综合年产能可达 17 万箱以上，强大的综合生产运营实力为产品生产提供了坚实的后盾。厂区内环境优美，花园式组合空间设计，创意无限，是国内大型新型化、现代化的模块化建筑产品生产基地。成立了专门的模块化房屋研究所，确保为客户提供安全、环保、智慧、舒适的组合建筑空间。

GS Housing's five production bases have a comprehensive annual production capacity of more than 170,000 houses, the strong comprehensive production and operation capabilities provide a solid backing for houses production. As well as the factories designed with garden-type, environment is very beautiful, They are large-scale new and modern modular building product production bases in China. A special modular housing research institute has been established to ensure that it provides customers with a safe, environmentally friendly, intelligent and comfortable combined building space.

花园式工厂：华东基地。位于江苏省常州市金坛区直溪镇，占地 8 万平方米，年产能 3 万箱。

Garden-type factory: production base in east of China, located in Zhixi Town, Jintan District, Changzhou City, Jiangsu Province, covers: 80,000 m^2 , annual production capacity: 30,000 set houses.

生态工厂：华西基地。位于四川省成都市，占地 6 万平方米，年产能 2 万箱。

Ecological factory: production base in west of China, located in Chengdu City, Sichuan Province, covers: 60,000 m^2 , annual production capacity: 20,000 set houses.

智慧工厂：华北基地。天津市宝坻区天宝工业园区，占地 13 万平方米，年产能 5 万箱。

Smart factory: production base in north of China, located in Tianbao Industrial Park, Baodi District, Tianjin, covers: 130,000 m^2 , annual production capacity: 50,000 set houses.

6S 样板工厂：华南基地。位于广东省佛山市高明区更合镇小洞工业园区，占地 9 万平方米，年产能 5 万箱。

6S model factory: production base in south of China, located in Xiaodong Industrial Park, Genghe Town, Gaoming District, Foshan City, Guangdong Province, covers: 90,000 m^2 , annual production capacity: 50,000 set houses.

高效工厂：东北基地。位于辽宁省沈阳市近海经济区，占地 6 万平方米，年产能 2 万箱。

Efficient factory: production base in northeast of China, located in the Offshore Economic Zone of Shenyang City, Liaoning Province, covers: 60,000 m^2 , annual production capacity: 20,000 set houses.

生产设备

PRODUCTION EQUIPMENT

- ① 全自动复合板生产线
Automatic composite board production line
- ② 激光切割机
Laser cutting machine

- ③ 焊接车间
Welding workshop
- ④ 数控折弯机
CNC bending machine

公司拥有先进的模块化房屋生产线，包括全自动复合板生产线、石墨烯静电喷涂涂装车间、独立的压型车间、门窗车间、机加工车间、总装车间、全自动的数控火焰切割机、激光切割机、门式埋弧焊机、二氧化碳保护焊、大功率冲床、冷弯成型机、箱形梁柱铣边机、数控折弯剪板机等。所有生产均可实现全数控化，高效、准确、无误，并配备了高素质的操作技师，确保每一件构件的完美无瑕。

GS Housing has the advanced supporting modular housing production lines, including fully automatic composite board production lines, Graphene electrostatic spray coating lines, independent profiling workshops, door and window workshops, machining workshops, assembly workshops, fully automatic CNC flame cutting machines, and laser cutting machines, portal submerged arc welding machines, carbon dioxide shielded welding, high-power punching presses, cold bending forming machines, milling machines, CNC bending and shearing machines etc. High quality operators are equipped in each machine, so the houses can achieved the full CNC production, that ensure the houses produced timely, efficiently and accurately.

- ⑤ 冷弯压型生产线
Cold-formed production line

运营资质

QUALIFICATION

公司通过了ISO9001体系认证。拥有建筑业企业资质证书、职业健康安全管理体系认证证书、质量管理体系认证证书、环境管理体系认证证书等。拥有国际化的综合运营执行力，应对多元化的市场发展需求。

GS housing has passed ISO9001. It has the construction enterprise qualification certificates, occupational health and safety management system certification, quality management system certification, environmental management system certification, GS housing has the internationalized comprehensive operation execution ability to respond to the diversified market development needs.

工厂以6S为管理基础，不断从生产效率、成本、质量、交期、安全等方面，通过精益管理工具，逐步实现企业四大零化管理：故障零化、不良零化、浪费零化和灾害零化。

On the basis of 6S management, we continuously improve the comprehensive management from the aspects of production efficiency, cost, quality, delivery time, safety, etc., build our factory into the first-class factory in the industry, and gradually realize the four zeroed management of the enterprise: zero failure, zero bad, zero waste and zero disaster.

CREATE VALUABLE PRODUCT FOR THE SOCIETY
创造有价值的产品为社会服务

PRODUCT SYSTEM

产品体系

争做最为合格的模块化房屋系统服务商

THE MOST QUALIFIED SERVICE PROVIDER OF PREFABRICATED HOUSING SYSTEM

箱房结构 HOUSE STRUCTURE

打包式箱房结构简单、安全，对基础要求低，使用寿命20年以上，可多次周转。现场安装快捷、移动搬迁便利、产品拆装无损耗、无建筑垃圾，其具有预制化、灵活性、节能环保等特点，被称为新型“绿色建筑”。

The flat-packed container house has a simple and safe structure, low requirements on the foundation, more than 20 years service life, and can be turned over many times. Install on site is fast, convenient, and no loss & construction waste when disassemble and assemble the houses, it has the characteristics of prefabrication, flexibility, energy saving and environmental protection, and is called a new type of "green building."

打包式箱房由顶框组件、底框组件、角柱和若干块可互换墙板组成，采用模块化设计理念和生产技术，把一个箱房模块化成标准的零部件，到受用地再现场组装或吊装落位即可。箱体结构采用特殊冷弯镀锌型钢构件，围护材料全部采用不燃材料，水暖电气、装饰装潢以及配套功能全部预制完成，不需要二次施工。产品以箱体为基本单元，可单独使用，也可通过水平及竖直方向的不同组合形成宽敞的使用空间和叠层。

The flat-packed container house is composed of top frame components, bottom frame components, columns and several interchangeable wall panels. Using modular design concepts and production technology, modularize a house into standard parts and assemble the house on the site. The house structure is made of special cold-formed galvanized steel components, the enclosure materials are all non-combustible materials, the plumbing, heating, electrical, decoration and supporting functions are all prefabricated in factory. The product uses one house as the basic unit, which can be used alone, or form a spacious space through different combinations of horizontal and vertical directions.

顶框组件

TOP FRAME COMPONENTS

结构及配件：四周主梁3.0mm厚镀锌冷轧钢制型材，材质高强SGC340；四个角件，与主梁焊接成框；次梁采用7道镀锌，材质为Q345B，C100x40x12x1.5mm，间距755mm。

Structure and accessories: 3.0mm thick galvanized cold-rolled steel profile for the main beam, material: SGC340; four corner pieces, welded to the main beam and form a frame; the sub-beam adopts 7pcs galvanizing steel, material: Q345B, C100x40x12x1.5mm, The spacing is 755mm.

屋面板：0.5mm厚镀锌彩钢板，颜色白灰色，PE涂层，镀锌含量 $\geq 40g/m^2$ ；360度咬口搭接。

Roof panel: 0.5mm thick Alu-zinc colorful steel plate, white-gray color, PE coating, Alu-zinc content $\geq 40g/m^2$; 360-degree lap joint.

保温层：100mm厚玻璃丝棉毡单面带铝箔，容重 $\geq 16kg/m^3$ ，燃烧性能为A级不燃。

Insulation layer: 100mm thick glass wool felt with aluminum foil on one side, density $\geq 16kg/m^3$, combustion performance is Class A non-combustible.

吊顶板：0.42mm厚镀锌彩钢板，V-193型（隐藏钉），颜色白灰色，PE涂层，镀锌含量 $\geq 40g/m^2$ 。

Ceiling plate: 0.42mm thick Alu-zinc colorful steel plate, V-193 type (hidden nail), white-gray color, PE coating, galvanized zinc content $\geq 40g/m^2$.

工业插座：镶嵌在短边的顶框架梁防爆盒内，一个总插头。（设备预冲孔）

Industrial socket: inlaid in the short side of the top frame beam explosion-proof box, a general plug, (pre-punching on the explosion-proof box)

顶框结构及配件
Top frame structure and accessories

工业插座
Industrial socket

V-193 型吊顶板(隐藏钉)
V-193 type ceiling board (hidden nail)

底框组件

BOTTOM FRAME COMPONENTS

底框结构及配件
Bottom frame structure and accessories

PVC 地板
PVC floor

结构及配件：主梁3.5mm厚镀锌冷轧钢制型材，材质高强SGC340；四个角件，与主梁焊接成框，次梁9道“π”字型， 120×2.0 ，材质为Q345B，两道通长扁通加固口 $20 \times 10 \times 1.0mm$ 。（底框长边梁预冲孔）

Structure and accessories: 3.5mm thick galvanized cold-rolled steel profile for the main beam, material: SGC340; four corner pieces, welded to the main beam and form a frame, the secondary beam: 9pcs "π" typed, spec.: 120×2.0 , material: Q345B, two-pass, long flat-pass reinforced opening $20 \times 10 \times 1.0mm$. (Pre-punched holes on the long side beam of the bottom frame)

保温层：无底保温。

Insulation layer: without insulation.

封底板：0.3mm。

Sealing bottom plate: 0.3mm.

室内地面：2.0mm厚PVC地板，燃烧性能为B1级难燃；19mm厚水泥纤维板，密度 $\geq 1.5g/cm^3$ ，A级不燃。

Indoor floor: 2.0mm thick PVC floor, combustion performance is B1 grade non-combustible; 19mm thick cement fiberboard, density $\geq 1.5g/cm^3$, A grade non-combustible.

角柱系统

CORNER POST SYSTEM

镀锌冷轧钢制型材，3.0mm厚材质为SGC440

Galvanized cold rolled steel profile, thickness: 3.0mm, material: SGC440

四个角柱尺寸相同，具有互换性

four columns are same, can be interchanged.

角柱与顶框及底框采用内六角头螺栓连接，强度8.8级。

The columns are connected with the top frame and the bottom frame with Hexagon head bolts(strength: 8.8)

角柱内部现场安装完毕应确保填充保温块。

Ensure the insulation block is filled after completed the installation of columns.

结构四周与墙板衔接处，粘结绝缘胶带，杜绝冷热桥效应，提高保温节能性能。

Add the insulating tapes among the junctions of the structures and the wall panels to prevent the effect of cold and heat bridges and improve the performance of heat preservation and energy saving.

墙板系统

WALL PANEL SYSTEM

厚度：75/60mm 厚彩钢夹芯板，有效宽度1150mm。

Thickness: 75/60mm thick colorful steel sandwich panel, effective width 1150mm.

外板：外板采用 0.42mm 橘皮纹镀铝锌彩钢板，HDP 涂层，颜色为象牙白。

Outer board: The outer board is made of 0.42mm orange peel pattern Alu-zinc colorful steel plate, HDP coating, color: ivory white.

保温层：75/60mm 厚憎水玄武岩棉（环保），容重 $\geq 100\text{kg/m}^3$ ，燃烧性能为 A 级不燃。

Insulation layer: 75/60mm thick hydrophobic basalt wool (environmental protection), density $\geq 100\text{kg/m}^3$, combustion performance is Class A non-combustible.

内墙板：内板采用 0.42mm 纯平镀铝锌彩钢板，颜色为白灰，PE 涂层。

Inner wall panel: The inner panel adopts 0.42mm pure flat Alu-zinc colorful steel plate, PE coating, color: white gray.

结构为高强度冷弯镀锌型材，抗震、抗风等结构性能优越；围护板材、保温材料均采用A级不燃的岩棉；实施过程中不打胶、不喷漆、不焊接作业，施工装配率可达到100%；运输效率高，一个40尺海运集装箱至少可装运300㎡快装房。在同样的条件下，陆运仅需4.5m和12.6m货车各一辆，装车量达到90%以上，安装效率高，以300㎡快装房为例，大约5天可安装完成。

The structure is high-strength cold-formed galvanized profile, which has excellent structural properties such as earthquake resistance and wind resistance; the enclosure plates and insulation materials are all made of Class A non-combustible rock wool; no glue, paint, no welding, construction and assembly during the implementation process The rate can reach 100%; the transportation efficiency is high, and a 40-foot sea container can carry at least 300 square meters of fast-moving houses. Under the same conditions, land transportation only needs one 4.5m and 12.6m truck, with a loading capacity of more than 90%, and high installation efficiency. Taking a 300㎡ fast-installation room as an example, the installation can be completed in about 5 days.

快装房

QUICK INSTALLATION ROOM

快装房 (KZ) 设计参数

Design parameters of prefabricated container (KZ-type) house

设计使用年限 Lifecycle of design	20年 /20 years
抗震设防烈度 Seismic fortification intensity	8度 /8 degrees
基本风压 Wind velocity pressure	0.6KN/㎡
基本雪压 Snow load pressure	0.3KN/㎡
屋面活载 Roof live load	0.3KN/㎡

为响应国家绿色装配式建筑设计理念，快装房（KZ型房屋）实现了工厂智能化、流水线生产。质量控制严格，生产效率高，达成规模生产及成本的有效控制。

As response to the national design philosophy of green prefabricated architecture, the prefabricated container house (KZ-type house) realizes the intelligent and streamlined production of factory with strict quality control and high production efficiency, which is featured with scale-up production and effective cost control.

快装房 (KZ) 规格选用一览表

Package list of specifications of KZ-type house

编号 NO.	结构形式 Structural form	跨度 Span	总高 (檐高) Total height (roof height)	室内净高 Ceiling height	柱距 Post distance	材质 Material
1	单坡女儿墙 Single slope parapet	3KZ	5.612 (两层箱房高)	4.0m	3450	C220×75×18×3.0
2	四坡 Four slope	3KZ	5.612 (两层箱房高)	5.0m	3450	C220×75×18×3.0
3	双坡女儿墙 Double slope parapet	4KZ	7m	4.4m	3450	C280×75×18×3.0
4	双坡 Double slope	4KZ	6m	5.0m	3450	C280×75×18×3.0
5	四坡 Four slope	4KZ	6m	5.0m	3450	C280×75×18×3.0

注：1KZ=3.45m 3KZ=10.35m；4KZ=13.8m；n=开间数量
建议选取以上规格，如甲方有特殊需求，可私人定制
