#### **Categories**

#### **Comfort Line**

- Used for low pressure and low power operations
- 100% Cotton abrasive backing

#### Universal Line

- · For medium to high pressure and power operations
- · Polycotton abrasive backing resistant to heavy applications

#### **Premium Line**

- · Used for high pressure and high
- Polycotton abrasive backing resistant to heavy applications

#### **Densities**

- · Once adequate performance is Economical product with less
- · Reasonable price, suitable for

- High stock removal operations Suitable for all application areas
- Favored in price performance

## SD Standard Density

### HD High Density

- · In aggressive sanding of curved and wide surfaces
- Long life product with wider and more flaps
- · Ideal for industrial heavy duty applications

### **Types and Diameters**

- · Used in flat surfaces
- · Ideal for blending and finishing
- Applied primarily between 0° to 15°

#### **Conical Type**

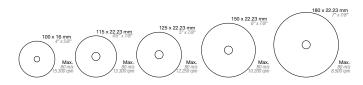

· Used in concaved surfaces and edges

. Applied primarily between 15° to 25°

· High stock removal with best surface contact

#### Flap Disc Diameters

#### **Advantages of Flap Discs**

#### **Advantages against Grinding Discs**

- · Faster and easier stock removal
- · Smoother finishing
- · Cooler grinding with reduced adhesion and less
- · Lighter equipment, easier control
- · Less vibration, less operator fatigue, less noise

#### **Advantages against Fibre Discs**

- · Longer lifetime, lower cost
- · Fewer disc changes, less labor cost
- More consistent finish
- · No back-up pad required
- · Easier storage and longer shelf life

#### **Backing Types**

Fibre Glass

#### **Application and Performance Table**

CEY51

Türkiye's **First Abrasive** Manufacturer

Nearly 60 Years of

With OSA Certified. **Quality Tested Beyond Standards** 

**SAFETY Products** 

# Why Karbosan

**Reducing Production Costs with** its Lifetime and Performance

**COST-SAVING Products** 

**Solution Partner** in All Processes From Pre-Sales to After-Sales

#### **Comfort Line ZR High Density Flap Discs**

Product Code: ZXR11 Abrasive : Zirconia

X Heavy Cotton Cloth

Weld grinding, deburring and blending applications for steel and stainless steel (Inox).

: More flap version High Density flap discs are preferred in aggressive sanding of curved and wide surfaces

#### **Universal Line ZR Standard Density Flap Discs**

X Heavy Poly-Cotton Cloth

Multipurpose aggressive grinding for steel, stainless

steel (inox) and metal.

Optimum flap version Standard Density flap discs are preferred in high stock removal operations.

#### **Premium Line AO Standard Density Flap Discs**

Product Code: AXPR11 : Aluminum Oxide

X Heavy Poly-Cotton Cloth

Multipurpose aggressive grinding for steel and metal.

Optimum flap version Standard Density flap discs are preferred in high stock removal operations.

#### **Premium Line 100% ZR Standard Density Flap Discs**

Product Code: ZXPR22

: 100% Zirconia : Y Poly-Cotton Cloth

Weld grinding, deburring and blending applications for steel and stainless steel (Inox).

Optimum flap version Standard Density flap discs are

preferred in high stock removal operations.

#### **Premium Line 100% ZR High Density Flap Discs**

Product Code: ZXPR22

: 100% Zirconia

: Y Poly-Cotton Cloth

Weld grinding, deburring and blending applications for

steel and stainless steel (Inox)

: More flap version High Density flap discs are preferred in aggressive sanding of curved and wide surfaces.

### **Premium Line CE Standard Density Flap Discs**

stainless steel (Inox) and high alloy steel.

Optimum flap version Standard Density flap discs are preferred in high stock removal operations.
