

## **AETC 2026 Session Type descriptions:**

- 1. Presentation Session**- Presenters share research, insights, or expertise with attendees. The presentation includes slides, visual aids, and sometimes demonstrations. Attendees do not need a mobile device to participate.
- 2. Interactive Hands-on Workshop** – An interactive hands-on workshop is engaging. Participants actively take part in various activities and exercises to create and learn new skills or knowledge. Attendees will need a computer or mobile device, but the presenter will provide all other supplies for the workshop. Workshops are 2 hours longer.
- 3. Panel Discussion**- In a panel discussion, two or more speakers will share different perspectives or different aspects of the presentation topic. Presenters will summarize their work and relate it to that of the other panelists. Attendees do not need a mobile device to participate.
- 4. Training Workshop** – Training workshops are designed to teach specific skills or knowledge to participants. The workshop includes time for attendees to practice new skills. Attendees are encouraged to bring a device. Workshops are 2 hours or longer.
