PEACHTREE CORNERS, GA – January 16, 2018 – The Atlanta Marriott Peachtree Corners has completed the final phase of an extensive transformation that began 18 months ago. The renovation of the hotel concluded with the remodeling of all 222 guest rooms which now feature Marriott's freshly "redesigned" room concept. The new rooms highlight walk-in, glass-enclosed showers, hardwood floors, and earth tone finishes—all designed to create a sense of calm and well-being. The completion of the guest room remodeling is the culmination of a dramatic transformation that also includes a total redesign of all public spaces, with an interactive lobby and guest registration area. In addition, the hotel refurbished its nearly 5,000 square feet of meeting and conference space, as well as the swimming pool and deck area, and added a trendy new dining spot, Restaurant 475.

Hotel General Manager, Mike Roling, said, "The Atlanta Marriott Peachtree Corners has long been a community favorite and it's a pleasure to offer our neighbors and guests this beautiful new hotel and restaurant that complements their lifestyle."
