

Webinar Announcement: 360° Agricultural Lien Management for 100% Confidence: Harnessing the Power of Change

Constant attention is required to maintain a holistic view of your lien portfolio. Do you have the tools you need to manage your portfolio in an integrated, automated, digitized way? Keeping on top of modern innovations can help you reduce costs, increase productivity, and stay ahead of the pack in the competitive field of agricultural lending. Join Passkey Partner (formerly the National Discount Program) Wolters Kluwer's Executive Director, Jeanne Aniton for this educational webinar about agricultural lien management.

This webinar will explore how the right lien management program can make a world of difference to your secured lending process. Attendees will have an understanding of:

- The modern financial landscape complexities facing ag lenders
- Ways to maintain a balanced approach to your lien management process
- How adding things like monitoring, reporting, automation and analytics can make your operation more efficient and profitable

This webinar has been recorded so that you may watch at your leisure. You may view the webinar at any time by [clicking here](#).
