

## CLAIMS ADVOCACY, EXPERT WITNESS, AND CLAIM AUDITS

*When it comes to managing your claims management programs, do you have the time to manage your third party claims administrators to assure compliance with your standards and best practices? If you self-administer, do you need an independent review and audit of your program or claims? Be certain with FCC Services through our unmatched and unparalleled experience and expertise in all property and casualty lines of insurance and our true independence from all carriers and brokers.*

FCC Services provides exceptional claims management program analysis and audit services. Many of our clients see us as an outreach of their overall risk management program by working with their TPA's, brokers, and loss control/safety partners or personnel. We spend the necessary time to understand our client's industries, needs, expectations, and standards to assure compliance from the important players in their sophisticated claims management programs.

We have strength and experience over other captive and pool management firms:

- We are truly independent with no ownership interest in or hidden loyalties to brokers or insurance carriers.
- We have expertise in all property and casualty insurance claims including E&O, D&O, EPLI, Property, General Liability, Auto, and Workers Compensation.
- Because of our extensive claims management background and experience, we are a great fit for expert testimony in all property and casualty lines of insurance.
- We are our clients outsourced risk management department with the responsibilities of managing the claims management function.
- Providing other self-insurance services like captive and pool management, we truly understand the needs of our self-insured clients and exceed their expectations and best practices.

## About Our Experts

With more than 20 years of experience working with public and privately owned companies, FCC Services expert consultants have the knowledge and experience to provide risk management consulting services to clients. Our expert consultants can effectively tailor our services to fit our client's needs, expectations, and standards. Contact one of our experts for more information on how FCC Services can partner with your organization.
