FCC Services provides tailored claims management programs for clients in all property and casualty lines of insurance. This includes our capability of nationwide handling of property, liability, automobile, and Workers Compensation claims.

We have strength and experience over your typical TPA in many ways including:

- Unbundled approach to medical bill review, nurse case management, and other ancillary services.
- No ownership interest in medical bill review, nurse case management, and other ancillary services – we do what we do best ... extraordinary claims management.
- True claims management consultation, working with our clients on ways to prevent losses from occurring and once a loss does occur, the most effective ways of managing the costs.
- Through our web-based RMIS System, CSStars, clients access their claims and can generate reports with the most powerful report engine available in the marketplace.
- Effectively managing costs through our long-term relationships with nationwide occupational physicians, attorneys, private investigators, nurse case managers, field investigators, and other important partners
- Providing other self-insurance services like captive and pool management, we truly understand the needs of our self-insured clients and exceed all client expectations and best practices.

About FCC Services

Our vision is simple, yet bold – we empower organizations to be more. For over 35 years, FCC Services has worked with the Farm Credit System and agricultural cooperatives to help them achieve organizational and operational excellence. Today, we are a business services and consulting firm that provides governance and leadership development, executive coaching, talent selection, merger, acquisition and corporate finance advisory, risk management and insurance management to a variety of client segments. The unique blend of our expertise, services, programs and conferences enables us to create enriching business solutions.
