

EXPLODED DRAWING A

Model No. F609.2 R1215A

This diagram is an exploded view of a mechanical assembly, likely a piece of industrial equipment. The components are numbered as follows:

- Top Section:** Includes a large rectangular component (2), a small rectangular component (47), and a series of rollers or wheels (22, 24, 26, 39, 59) mounted on a frame (14).
- Central Section:** Features a tall vertical rectangular component (1). To its right are two stacked rectangular blocks (15, 16) with internal components (65, 66, 17). A long vertical rod (18) passes through the assembly, with various pins and washers (60, 57, 64, 33, 46, 45, 19, 64, 12, 38, 63, 34, 40, 50, 37, 36, 55, 53, 56, 41, 48, 42, 32) securing it.
- Bottom Section:** Includes a large rectangular component (6), a smaller rectangular component (7), and a series of rollers or wheels (22, 24, 26, 39, 59) mounted on a frame (14).
- Left Section:** Shows a large rectangular component (9) and a series of rollers or wheels (22, 24, 26, 39, 59) mounted on a frame (14).
- Right Section:** Includes a large rectangular component (10), a smaller rectangular component (11), and a series of rollers or wheels (22, 24, 26, 39, 59) mounted on a frame (14).

The diagram uses dashed lines to indicate the assembly path and alignment of the components.
