WARNING DECAL PLACEMENT

This drawing shows the location(s) of the warning decal(s). **If a decal is missing or illegible, see the back cover of this manual and request a free replacement decal. Apply the decal in the location shown.** Note: The decal(s) may not be shown at actual size.

IMPORTANT PRECAUTIONS

⚠️ WARNING: To reduce the risk of serious injury, read all important precautions and instructions in this manual and all warnings on your strength equipment before using your strength equipment. FreeMotion Fitness assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

1. Before beginning any exercise program, consult your physician. This is especially important for persons over age 35 or persons with pre-existing health problems.
2. Use the strength equipment only as described in this manual.
3. Use the strength equipment only on a level surface. Cover the floor beneath the strength equipment to protect the floor.
4. It is the purchaser's responsibility to ensure that there is enough space around the strength equipment for the intended exercise. Do not crowd the strength equipment.
5. Using the four 14 mm anchor holes to provide maximum stability, the strength equipment must be anchored to the floor where required or whenever possible.
6. Make sure that all parts are properly tightened before each use of the strength equipment.
7. It is the responsibility of the owner to ensure that all users of the strength equipment are adequately informed of all precautions, have read and understood all warning and caution decals, and are informed of how to use the strength equipment properly.
8. All users of the strength equipment should be instructed to report any injury or strength equipment irregularity to facility staff immediately.
9. The strength equipment is designed to support a maximum total weight of 1,270 lbs. (576 kg). The short storage bar can hold up to six 25-lb. weights (150 lbs./66 kg). The upper long storage bar can hold up to fourteen 35-lb. weights (490 lbs./222 kg). The lower long storage bar can hold up to fourteen 45-lb. weights (630 lbs./280kg). The strength equipment can also hold two Olympic-size straight bars or curl bars. Note: The strength equipment does not include bars or weights.
10. Keep children under age 12 and pets away from the strength equipment at all times.
11. Always wear athletic shoes for foot protection while using the strength equipment.
12. Over exercising may result in serious injury or death. If you feel faint or if you experience pain while exercising, stop immediately and cool down.

BEFORE YOU BEGIN

Thank you for selecting the FREEMOTION® EPIC™ WEIGHT & BAR RACK strength equipment. The rugged WEIGHT & BAR RACK is designed to provide convenient storage and easy access for your weights and Olympic-size bars.

For your benefit, read this manual carefully before you use the strength equipment. If you have questions after reading this manual, please see the back

cover of this manual. To help us assist you, note the product model number and serial number before contacting us. The model number and the location of the serial number decal are shown on the front cover of this manual.

Before reading further, please familiarize yourself with the parts that are labeled in the drawing below.

ASSEMBLY

Place all parts of the strength equipment in a cleared area and remove the packing materials; **do not dispose of the packing materials until assembly is completed. Assembly requires a metric hex key and an adjustable wrench (not included).**

1. Attach the Upright (2) to the Base (1) with two M12 x 80mm Bolts (7) and two M12 Locknuts (8).

2. Insert the Short Storage Bar (4) into the highest hole in the Upright (2). Attach the Short Storage Bar with an M12 x 35mm Screw (6).

Attach the two Long Storage Bars (3) inside the lower holes in the Upright (2) with two M12 x 35mm Screws (6).

Slide two Bumpers (5) onto each Storage Bar (3, 4).

⚠ WARNING: See precaution 9 on page 3 to find the maximum weight that each Storage Bar (3, 4) is designed to support.

3. **Make sure that all parts of the strength equipment are properly tightened.** To protect the floor or carpet from damage, place a mat beneath the strength equipment.

MAINTENANCE AND TROUBLESHOOTING

For optimal performance of the strength equipment and to reduce the chances of injury to users, you must perform preventive maintenance on a regular basis. Instruct all personnel to perform the procedures described in this section. Personnel must also record and report any accident. To maintain the strength equipment's warranty, use only FREEMOTION parts for repair or replacement. If there are any questions or concerns, see HOW TO CONTACT CUSTOMER CARE on the back cover of this manual.

DAILY MAINTENANCE

1. Clean the strength equipment using a soft cloth dampened with a solution of mild soap and warm water. If necessary, use a soft bristle brush with the cleaning solution.
2. Rinse the area thoroughly using a soft cloth dampened with clean water. Then, dry the area thoroughly.

CAUTION: When using any cleaning product, try it first in an inconspicuous place to ensure that there is no damage to the material. Follow the directions and adhere to the safety precautions of the manufacturer of each cleaning product used. FreeMotion Fitness and its vendors cannot be held liable for damage or injuries resulting from the use or misuse of cleaning products.

IMPORTANT: Do not use abrasive cleaners, because they may scratch the strength equipment. Strong cleaners and abrasives may also damage decals. Do not use solvents such as lacquer thinner, kerosene, gasoline, or similar liquids to clean the strength equipment.

WEEKLY MAINTENANCE

Hardware

Check all nuts and bolts, and tighten them if necessary.
