WARNING DECAL PLACEMENT

The decals shown here have been applied to the weight bench. If a decal is missing or illegible, call the telephone number on the front cover of this manual and request a free replacement decal. Apply the decal in the location shown. Note: The decals may not be shown at actual size.

⚠ WARNING

User Weight: Max 300 LBS
Weight Crutch: Max 110 LBS
Leg Developer: Max 50 LBS
Weight Carriage: Max 110 LBS
Chest Fly Per Arm: Max 30 LBS
Product may not offer all listed exercises.

⚠ WARNING

- Misuse of this machine may result in serious injury.
- Read user's manual prior to use and follow all warnings and instructions.
- Do not allow children on or around machine.
- Keep body, clothing, and hair free and clear of all moving parts.
- Replace label if damaged, illegible, or removed.

IMPORTANT PRECAUTIONS

⚠️ WARNING: To reduce the risk of serious injury, read all important precautions and instructions in this manual and all warnings on the weight bench before using the weight bench. ICON assumes no responsibility for personal injury or property damage sustained by or through the use of the weight bench.

1. Before beginning any exercise program, consult your physician. This is especially important for persons over the age of 35 or persons with pre-existing health problems.
2. Read all instructions in this manual and all warnings on the weight bench before using the weight bench.
3. It is the responsibility of the owner to ensure that all users of the weight bench are adequately informed of all precautions.
4. The weight bench is intended for home use only. Do not use the weight bench in a commercial, rental, or institutional setting.
5. Keep the weight bench indoors, away from moisture and dust. Place the weight bench on a level surface, with a mat beneath it to protect the floor or carpet. Make sure that there is enough clearance around the weight bench to mount, dismount, and use it.
6. Keep children under age 12 and pets away from the weight bench at all times.
7. Inspect and properly tighten all parts regularly. Replace any worn parts immediately.
8. Make sure that the pins and knobs are fully engaged before the weight bench is used.
9. Wear appropriate clothes while exercising. Always wear athletic shoes for foot protection while exercising.
10. The weight bench is designed to support a maximum user weight of 300 lbs. (136 kg). Use only the included weights with the weight bench and the dumbbell stand.
11. If you feel pain or dizziness while exercising, stop immediately and cool down.
12. Use the weight bench only as described in this manual.

BEFORE YOU BEGIN

Thank you for selecting the new WEIDER® CLUB C240 weight bench. The weight bench offers a selection of exercises designed to develop the major muscle groups of the upper body. Whether your goal is to tone your body, build dramatic muscle size and strength, or improve your cardiovascular system, the weight bench will help you to achieve the specific results you want.

For your benefit, read this manual carefully before using the weight bench. If you have questions after reading this manual, please see the front cover of this

manual. To help us assist you, note the product model number and serial number before contacting us. The model number and the location of the serial number decal are shown on the front cover of this manual.

To avoid a registration fee for any service needed under warranty, you must register the weight bench at www.weiderservice.com/registration.

Before reading further, please review the drawing below and familiarize yourself with the parts that are labeled.

PART IDENTIFICATION CHART

See the drawings below to identify small parts used in assembly. The number in parentheses below each drawing is the key number of the part, from the PART LIST on page 14. **Note: Some small parts may have been preattached. If a part is not in the parts bag, check to see if it has been preattached.**

M10 Washer (39)

M6 Washer (35)

M10 Nylon Locknut (38)

M4 x 16mm Screw (32)

M6 x 40mm Screw (31)

M10 x 20mm Bolt (30)

M10 x 40mm Bolt (37)

M10 x 75mm Bolt (33)

M10 x 75mm Carriage Bolt (36)

M10 x 170mm Bolt (34)

M10 x 175mm Bolt (40)

ASSEMBLY

Make Assembly Easier

Everything in this manual is designed to ensure that the weight bench can be assembled successfully by almost anyone. By setting aside plenty of time, assembly will go smoothly.

Before beginning assembly, carefully read the following information and instructions:

- To hire an authorized service technician to assemble the weight bench, call 1-800-445-2480.
- Assembly requires two persons.
- Because of its size, the weight bench should be assembled in the location where it will be used. Make sure that there is enough clearance to walk around the weight bench as you assemble it.
- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing

materials until assembly is completed.

- Tighten all parts as you assemble them, unless instructed to do otherwise.
- As you assemble the weight bench, make sure all parts are oriented as shown in the drawings.
- For help identifying small parts, use the PART IDENTIFICATION CHART on page 5.
- Assembly requires the following tools (not included):

two adjustable wrenches

one rubber mallet

one standard screwdriver

one Phillips screwdriver

Assembly may be more convenient if you have a socket set, a set of open-end or closed-end wrenches, or a set of ratchet wrenches.

1.

Before beginning assembly, make sure that you have read and understand the information in the box above.

Attach the Dumbbell Stabilizer (6) to the Dumbbell Base (7) with two M10 x 75mm Bolts (33), two M10 Washers (39), and two M10 Nylon Locknuts (38).

2. Attach the Dumbbell Stand (5) to the Dumbbell Base (7) with two M10 x 75mm Carriage Bolts (36) and two M10 Nylon Locknuts (38).

3. Insert the Rear Stabilizer (4) into the Frame (1). Attach the Rear Stabilizer with two M10 x 20mm Bolts (30), one M10 x 75mm Bolt (33), four M10 Washers (39), and one M10 Nylon Locknut (38) as shown. **Do not tighten the Nylon Locknut yet.**

4. Insert the Front Stabilizer (3) into the Front Leg (2). Attach the Front Stabilizer with two M10 x 20mm Bolts (30), one M10 x 75mm Bolt (33), four M10 Washers (39), and one M10 Nylon Locknut (38) as shown.

Tighten the M10 Nylon Locknuts (38) used in steps 3 and 4.

5. Attach the Front Leg (2) to the Frame (1) with two M10 x 75mm Bolts (33) and two M10 Washers (39).

6. Orient the Seat Support (10) so that the adjustment slots are in the position shown. Attach the two Seat Frames (11) to the Seat Support with four M10 x 40mm Bolts (37), four M10 Washers (39), and four M10 Nylon Locknuts (38) as shown.

7. Attach the Seat (13) to the Seat Frames (11) with four M6 x 40mm Screws (31) and four M6 Washers (35).

8. Apply some of the included grease to one M10 x 170mm Bolt (34). Attach the Backrest Support (8) between the Backrest Frames (9) with the Bolt, two M10 Washers (39), and one M10 Nylon Locknut (38). **Do not overtighten the Nylon Locknut; the Backrest Support must pivot easily.**

Next, attach the Backrest (12) to the Backrest Frames (9) with four M6 x 40mm Screws (31) and six M6 Washers (35). **Do not tighten the Screws yet.**

9. Grease one M10 x 175mm Bolt (40). Attach the Backrest Frames (9) to the Frame (1) with the Bolt, two M10 Washers (39), and one M10 Nylon Locknut (38). **Do not overtighten the Nylon Locknut; the Backrest Frames must pivot easily.**

10. Grease one M10 x 175mm Bolt (40). Attach the Seat Frames (11) to the Frame (1) with the Bolt, two M10 Washers (39), and one M10 Nylon Locknut (38). **Do not overtighten the Nylon Locknut; the Seat Frames must pivot easily.**

See step 8. Tighten the M6 x 40mm Screws (31).

11. Insert the Pin/Tether (21) into the Frame (1). Attach the Pin/Tether with one M4 x 16mm Screw (32).

12. Insert the Pad Tube (14) into the Front Leg (2). Slide the two Foam Pads (15) onto the Pad Tube. Then, press two 19mm Round Inner Caps (23) into the Pad Tube.

13. Make sure that all parts are properly tightened before you use the weight bench. The use of the remaining parts will be explained in ADJUSTMENT, beginning on page 11.

ADJUSTMENT

This section explains how to adjust the weight bench. See the EXERCISE GUIDELINES on page 12 for important information about how to get the most benefit from your exercise program. Also, refer to the accompanying exercise guide to see the correct form for several exercises.

Make sure all parts are properly tightened each time the weight bench is used. Replace any worn parts immediately. The weight bench can be cleaned with a damp cloth and a mild, non-abrasive detergent; **do not use solvents**.

ADJUSTING THE BACKREST

To adjust the position of the Backrest (12), first lift the Backrest Support (8) out of the Frame (1). Move the Backrest Support along the Frame until the Backrest is in the desired position, and insert the Backrest Support into a slot in the Frame.

ADJUSTING THE SEAT

To adjust the position of the Seat (13), first pull the Pin/Tether (21) out of the Frame (1). Raise or lower the Seat to the desired position, and reinsert the Pin/Tether.

USING THE DUMBBELLS

To use the dumbbells, **first place the dumbbells on the floor**. Next, remove the Collars (20) by turning them counterclockwise. Slide the desired Weights (17, 18, 19) onto the Handles (16), and then replace the Collars by turning them clockwise. Note: When using the 2.5-lb. Weights with larger Weights, place the 2.5-lb. Weights between two larger Weights.

WARNING: Use the same amount of Weights (17, 18, 19) on each end of the dumbbells. Always secure Weights with the Collars (20).

Store unused Weights (17, 18, 19) on the tubes on the Dumbbell Stand (not shown).

EXERCISE GUIDELINES

THE FOUR BASIC TYPES OF WORKOUTS

Muscle Building

To increase the size and strength of your muscles, push them close to their maximum capacity. Your muscles will continually adapt and grow as you progressively increase the intensity of your exercise. You can adjust the intensity level of an individual exercise in two ways:

- by changing the amount of resistance used
- by changing the number of repetitions or sets performed. (A “repetition” is one complete cycle of an exercise, such as one sit-up. A “set” is a series of repetitions.)

The proper amount of resistance for each exercise depends upon the individual user. You must gauge your limits and select the amount of resistance that is right for you. Begin with 3 sets of 8 repetitions for each exercise you perform. Rest for 3 minutes after each set. When you can complete 3 sets of 12 repetitions without difficulty, increase the amount of resistance.

Toning

You can tone your muscles by pushing them to a moderate percentage of their capacity. Select a moderate amount of resistance and increase the number of repetitions in each set. Complete as many sets of 15 to 20 repetitions as possible without discomfort. Rest for 1 minute after each set. Work your muscles by completing more sets rather than by using high amounts of resistance.

Weight Loss

To lose weight, use a low amount of resistance and increase the number of repetitions in each set. Exercise for 20 to 30 minutes, resting for a maximum of 30 seconds between sets.

Cross-training

Cross-training is an efficient way to get a complete and well-balanced fitness program. An example of a balanced program is:

- Plan strength training workouts on Monday, Wednesday, and Friday.
- Plan 20 to 30 minutes of aerobic exercise, such as running on a treadmill or riding on an exercise cycle, on Tuesday and Thursday.
- Rest from both strength training and aerobic exercise for at least one full day each week to give your body time to regenerate.

The combination of strength training and aerobic exercise will reshape and strengthen your body, plus develop your heart and lungs.

PERSONALIZING YOUR EXERCISE PROGRAM

Determining the appropriate length of time for each workout, and the numbers and repetitions or sets to complete, is an individual matter. Avoid overdoing it during the first few months of your exercise program. Progress at your own pace and be sensitive to your body's signals. If you experience pain or dizziness while exercising, stop immediately and cool down. Find out what is wrong before continuing. Remember that adequate rest and a proper diet are important factors in any exercise program.

WARMING UP

Begin each workout with 5 to 10 minutes of stretching and light exercise to warm up. Warming up prepares your body for more strenuous exercise by increasing circulation, raising your body temperature and delivering more oxygen to your muscles.

WORKING OUT

Each workout should include 6 to 10 different exercises. Select exercises for every major muscle group, emphasizing areas that you want to develop most. To give balance and variety to your workouts, vary the exercises from session to session.

Schedule your workouts for the time of day when your energy level is the highest. Each workout should be followed by at least one day of rest. Once you find the schedule that is right for you, stick with it.

EXERCISE FORM

Maintaining proper form is an essential part of an effective exercise program. This requires moving through the full range of motion for each exercise, and moving only the appropriate parts of the body. Exercising in an uncontrolled manner will leave you feeling exhausted. On the exercise guide accompanying this manual you will find photographs showing the correct form for several exercises, and a list of the muscles affected. See the muscle chart on page 13 to find the names of the muscles.

The repetitions in each set should be performed smoothly and without pausing. The exertion stage of each repetition should last about half as long as the return stage. Proper breathing is important. Exhale during the exertion stage of each repetition and inhale during the return stroke. Never hold your breath.

Rest for a short period of time after each set. The ideal resting periods are:

- Rest for three minutes after each set for a muscle building workout.
- Rest for one minute after each set for a toning workout.
- Rest for 30 seconds after each set for a weight loss workout.

Plan to spend the first couple of weeks familiarizing yourself with the equipment and learning the proper form for each exercise.

COOLING DOWN

End each workout with 5 to 10 minutes of stretching. Include stretches for both your arms and legs. Move slowly as you stretch and do not bounce. Ease into each stretch gradually and go only as far as you can without strain. Stretching at the end of each workout is an effective way to increase flexibility.

STAYING MOTIVATED

For motivation, keep a record of each workout. List the date, the exercises performed, the resistance used, and the numbers of sets and repetitions completed. Record your weight and key body measurements at the end of every month. The key to achieving the greatest results is to make exercise a regular and enjoyable part of your everyday life.

PART LIST—Model No. WEBE1067.0

ORDERING REPLACEMENT PARTS

To order replacement parts, please see the front cover of this manual. To help us assist you, be prepared to provide the following information when contacting us:

- the model number and serial number of the product (see the front cover of the manual)
- the name of the product (see the front cover of this manual)
- the key number and description of the part(s) (see the PART LIST and the EXPLODED DRAWING near the end of this manual)

LIMITED WARRANTY

ICON Health & Fitness, Inc. (ICON) warrants this product to be free from defects in workmanship and material, under normal use and service conditions, for a period of ninety (90) days from the date of purchase. This warranty extends only to the original purchaser. ICON's obligation under this warranty is limited to replacing or repairing, at ICON's option, the product through one of its authorized service centers. All repairs for which warranty claims are made must be pre-authorized by ICON. If the product is shipped to a service center, freight charges to and from the service center will be the customer's responsibility. For in-home service, the customer will be responsible for a minimal trip charge. This warranty does not extend to any product or damage to a product caused by or attributable to freight damage, abuse, misuse, improper or abnormal usage or repairs not provided by an ICON authorized service center; products used for commercial or rental purposes; or products used as store display models. No other warranty beyond that specifically set forth above is authorized by ICON.

ICON is not responsible or liable for indirect, special or consequential damages arising out of or in connection with the use or performance of the product or damages with respect to any economic loss, loss of property, loss of revenues or profits, loss of enjoyment or use, costs of removal or installation or other consequential damages of whatsoever nature. Some states do not allow the exclusion or limitation of incidental or consequential damages. Accordingly, the above limitation may not apply to you.

The warranty extended hereunder is in lieu of any and all other warranties and any implied warranties of merchantability or fitness for a particular purpose is limited in its scope and duration to the terms set forth herein. Some states do not allow limitations on how long an implied warranty lasts. Accordingly, the above limitation may not apply to you.

This warranty gives you specific legal rights. You may also have other rights which vary from state to state.

ICON HEALTH & FITNESS, INC., 1500 S. 1000 W., LOGAN, UT 84321-9813
