USER'S MANUAL

Thank you for selecting the DP30 DELUXE WORKOUT BENCH weight bench. The weight bench is designed to develop the muscle groups of the upper body. Whether your goal is to tone your body, build dramatic muscle size and strength, or improve your cardiovascular system, the weight bench will help you to achieve the specific results you want.

 WARNING: Before beginning this or any exercise program, consult your physician. This is especially important for persons over the age of 35 or persons with pre-existing health problems. Read all instructions before using. ICON assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

Always secure the legs in the up or down position with the pins. This will reduce the risk of movement or collapsing of the weight bench during use.

ADJUSTING THE WEIGHT BENCH

The weight bench can be used with only one Leg in the down position to perform inclined or declined exercise, or with both Legs in the down position.

To adjust the position of a Leg, remove the Pin from the Leg and the Bench Frame. Move the Leg to the up or down position and engage the Pin into the Leg and the Bench Frame.

To store the weight bench, secure both Legs in the up position.
