The diagram illustrates the assembly of a seat chair adjust set. It features a long horizontal base plate labeled **AJ2** with four circular mounting holes. A vertical support structure is attached to the base. A horizontal adjustment arm is shown in an exploded view, aligned with the support structure. This arm is secured by a series of four bolts, with the topmost one labeled **D15x4**. The assembly is designed to allow for the adjustment of the chair's backrest angle.
