2:30 p.m. Welcome!
Paul Fisher, M.D., Bing Director of Human Biology
Richard Saller, Vernon R. & Lysbeth Warren Anderson
Dean of Humanities & Sciences

2:45 p.m. HumBio Alumni Talks

### Spanish for Plunger
by Ari Bernstein ‘99
M.D., M.P.H., Associate Director of the Center for Health and the Global Environment, Harvard T.H. Chan School of Public Health, and a Hospitalist for the Division of General Pediatrics at Boston Children’s Hospital. His research interests are in the area of loss of biological diversity and human health.

### A Celebration of Firsts
by Curt Langlotz ’81
M.D., Professor of Radiology and Biomedical Informatics at Stanford University's School of Medicine. He is responsible for the computer systems that support Stanford's radiology practice, including the management of over 1 billion digital medical images requiring 0.5 petabytes of storage. Dr. Langlotz's research laboratory investigates the use of deep neural networks and other machine learning technologies to help radiologists detect and diagnose disease.

### Medical Wearables; what attracts a HumBio VC to invest
by Wende Hutton ’81
M.B.A., General Partner, Healthcare Investor at Canaan Partners. She has over 23 years of experience, and her life sciences venture track record includes 7 IPOs and 6 acquisitions. Ms. Hutton holds an MBA from Harvard Business School.

### Putting the Human in HumBio
by Flora Lu ’93
Ph.D., Associate Professor of Environmental Studies at UCSC and Provost of Colleges Nine and Ten. Her research and teaching interests encompass the human ecology of Amazonia, environmental justice, political ecology, and Latin American studies.
