November 5, 2009

The Honorable Collin Peterson, Chairman
Committee on Agriculture
U.S. House of Representatives
1301 Longworth House Office Building
Washington, DC 20515

The Honorable Frank Lucas, Ranking Member
Committee on Agriculture
U.S. House of Representatives
1305 Longworth House Office Building
Washington, DC 20515

Dear Chairman Peterson and Ranking Member Lucas,

The organizations identified on this letter represent millions of hunters and anglers and other outdoor recreationalists that are writing to express our strong support for H.R.3749, the “*Recreational Fishing and Hunting Heritage and Opportunities Act*”. This legislation will protect recreational hunting, fishing and shooting on land administered by the Bureau of Land Management (BLM) and the U.S. Forest Service.

Numerous reports in recent years have demonstrated what sportsmen already know, that historic access to public land is being closed or constrained because of development along the boundary

lines, greater diversity of recreation uses, and lack of planning to address these issues. Inadequate access to public lands is cited as a primary reason why hunters stop hunting.

The “Recreational Fishing and Hunting Heritage and Opportunities Act” will help to preserve these precious public resources for the sportsmen whose dollars have stewarded the land for generations.

Because Federal agencies are guided by land management plans, this bill directs agencies charged with multiple-use mandates to provide for and promote sportsmen’s use and access of public lands in their land management plans. It would require that planning evaluate the effects of management alternatives on sportsmen’s activities and recognizes the Sport Fishing and Boating Partnership Council and the Sporting Conservation Council as policy advisors on issues relevant to the wildlife conservation and sportsmen’s communities. Lastly, the bill assures that the states’ authority to manage fish and wildlife on Federal public lands is preserved and that the states have the exclusive authority to require licenses or permits of sportsmen.

While the bill does not open new lands to hunting, fishing, or recreational shooting, it does greatly enhance the ability of Federal land managers to provide for this traditional use of public lands in safe areas and to plan recreational use that balances the needs and interests of a diverse recreating public.

It is time to recognize the heritage of hunting, fishing, and shooting on our public lands and to protect and enhance sportsmen’s access to these resources. We respectfully request that your committee consider holding a hearing on this legislation at the earliest possible opportunity and look forward to using all our collective resources to ensure its quick passage.

Sincerely,
