

# BEFORE/AFTER SCHOOL STEM Clubs

STEM (Science - Technology - Engineering - Math)

## Enrichment Programs

**MY AMAZING FLYING MACHINE** Zoom your way into this high-flying club. Speed your way through the four forces of flight by making a ping pong ball float, designing your own parachute, sending rockets into the atmosphere, building your own plane, and much more. Soar your way through this aerodynamic club. May the four forces of flight be with you!

**SLIMEOLOGY** Slimy, Goopy, and Gross. FINALLY, a club all about SLIME. We will make all different kinds of Non-Newtonian Fluids and explore the properties of matter. If you can squeeze it between your fingers and toes, we are going to make it. Floam, Sparkle Slime, and, of course, glow in the dark slime. It's a messy club made for the messiest of us all!

**RADICAL REACTION LAB** Enter our reaction lab and you will be transformed into a chemist! Create chemical concoctions that fizz, bubble, and ooze. Make your own chemical reactions to create a super polymer bouncy ball, meet the mysterious Mushroom Men, create your own Magic Crystal, and much more. If you like mixing things up, then come get Radical in our lab!

**SCIENCE BLOOPERS AND PRACTICAL JOKES** OOPS! Is it a blooper or something quite super? Discover the fun behind Serendipity Science as we use some crazy science to do amazing projects. Create your own Talking Cup. Experiment with the vanishing quarter. Have fun with your friends doing Amazing Feats of Science. Astound an audience with our terrific but very scientific magic tricks. Sign up today, and you'll be the one who has the last laugh!

**BLAST INTO SPACE** SPACE: The Final Frontier! In this club you will train to become a Space Voyager. Learn about our Solar System, Planets, and beyond. Design your own space vehicle. Find out how it would be to live and work in space. Enjoy Astronaut Ice Cream. Build your own squeeze rocket. Don't miss out on this cosmic adventure!
