

CHANGE FOR CHANGE

You might have noticed the bright lime green parking meters about town with the sign asking you to “donate your spare change to this Change for Change Caring Meter and make a difference. Money collected by this meter will support local community agencies assisting those in need.”

There are 10 meters. Parishioner Libby Fitzgerald and her partner Peggy Nolley who came from Canada initiated this project. Over two years they have collected and given away \$20,000 to efforts in the city that are underfunded but doing wonderful things to meet important needs.

Their message is that a little change can go a long way and they have Matching Business Partners who contribute to the pot each time they collect \$1000 in their meters. Our parishioner Mike Madden is one of them and his and the others' generosity and support are greatly appreciated!!

Go find a meters throughout downtown and Boonsboro and please feed them your spare change!
