*Sitting pretty, sitting up
carried securely
on shoulders firm.*

*Leaving the others
to find the little one,
the lost one.*

*Vantage point:
Rescued.
Sought out.
Lifted on high.
After lost, stray,
bewildered by life.*

*Then to stoop low
to powerfully
place me up.
See life again,
not from down alone,
but up, up with you.*

*Who would have
believed
you would seek me?
Seek me out?*

*Free at last,
with you at last.
Looking not back
by looking with you.*
