

SPIRIT OF ST. NICHOLAS OUTREACH PROJECT:

We are looking to collect items for the Boys and Girls Club of Newport News which will be used to promote STEM (Science, Technology, Engineering and Math). There is a group of college students from Christopher Newport University who visit the Boys and Girls Club to encourage these children with fun projects. This is a new endeavor with no financial support. These students are looking for donations so that they continue working with the boys and girls on a more frequent basis as has been requested by the Boys and Girls Club.

If you are able to help these college students fulfill their mission, we are collecting the items listed below at the St. Nicholas Breakfast:

- Amazon, Target or Walmart Scrip
- Legos (brick pieces, not sets – new or used)
- plastic cups
- corn starch, hydrogen peroxide
- borax
- utensils
- shaving cream
- food coloring
- spaghetti (uncooked, boxes)
- pipe cleaners
- paper plates
- colored construction paper
- markers/crayons/washable paint
- bubbles / bubble wands
- flour
- balloons
