Education

- 09/11 - 06/15 **Mathematics**, *Santa Clara University*, Santa Clara, USA, *Bachelor of Science*.

Skills

To avoid recruiter spam, I follow an anti-buzzword pattern. Please feel free to ask questions about my technical background.

Cover Letter

I prefer to keep my resume as one page. This is my cover letter. I am a mathematician. I am a transwoman of color. I grew up in Silicon Valley. I've done quite a bit in tech. I like to solve problems. I'm good at it. I help companies increase profit while decreasing labor. I do it well. I'm pleasant to work with, easy to talk to, and I represent your business well. Simple as that. I speak Japanese. My aesthetics are flawless.
